

We're Going All Out To Make This One Special!

OUR 50th ANNIVERSARY

Offering Choice of the two top two-year-olds we've ever produced!

- ✓ Both maternal sisters to FOCUS and REFOCUS
- ✓ Both proven embryo producers
- ✓ Both with superior Ultrasound data
- ✓ Both designed for the creation of superior multi-trait herd sires.

SAF Forever Lady 0020 • 13542050

Combining the blood of Tehama Eisa Erica Y699 and GDAR Forever Lady 246, this high-volume, easy-fleshing female is typical of our SAF HI CHOICE daughters. She recorded a 6.88 %IMF and a REA of 13.0 sq. inches at 419 days to help her earn some of the best ultrasound EPDs available anywhere. 0020 produced eleven good embryos on April 8, 2002, will have twin bull calves by SAF CONNECTION in the offering, and is bred back to SAF FAME.

SAF Forever Lady 0182 • 13569349

This daughter of SAF Neutron out of GDAR Forever Lady 246 exemplifies the femininity and udder structure of the NEUTRON daughters. 0182 is a maternal sister to one of the breed's most popular proven sires, SAF FOCUS of ER, and to our recent \$100,000 record-selling bull calf, SYDGEN REFOCUS. 0182 produced twelve good embryos on May 8, 2002, and sells bred back to Twin Valley Precision E161, making her resulting calf a 3/4 sibling to the \$202,000 record-selling BR Midland.

The donor material in this year's offering will be the best we've ever released. Watch for more details!

The fastest way to get there is to buy the right genetics.

As always, we will feature an outstanding group of herd sire prospects - 75 fall yearling bulls and 100 bull calves. Past "graduates" of this sale include many of the breed's top A.I. sires, including FOCUS, FAME, 5175, DIRECTIVE, REFOCUS, FAMOUS 7001, BANKER, CHOICE PLUS, CONNECTION, NEUTRON, and STERLING.

Join us on November 23, 2002, as we unveil the newest generation of Sydenstricker Genetics, and celebrate fifty years of Angus progress.
