

# Curve-Bender Dam of the Year

A sort of the curve-bender sires on the 2002 Young Sire Summary will give you an indication of the awesome power of this female. Of negative BW sires, sons of 5084 rank first, third and fourth for WW; another son is the lowest BW EPD bull on the young sire summary. Our first calves by SAF CONNECTION indicate the same calving-ease proficiency.

5084's flush brother, SAF BANKER, has long been one of the popular sires for SydGen and Herbster, and her maternal brother, SAF EASY FORTUNE, has done an excellent job for ABS Global and Frank/Hazelrigg Angus.

In fact, 5084 is the only cow powerful enough to rank in the top 1% of the breed for all four of the main production traits: BW, WW, Milk and YW.
