

# Fall Breeding Season Is At Hand

## Millcreek Diversity

DIVERSITY may be the breed's premier growth and muscle sire. No sire in the Angus breed can match his YW and UREA EPDs at his accuracy level, and his first daughters are making tremendous cows. \$20 per straw/\$40 per certificate.

## SAF Connection

The top-selling bull in our 2000 Sale at \$50,000, CONNECTION's first calf crop has just been weaned and several are featured in our new sale book. Calving ease, phenotype, and performance look excellent on this great young sire. \$25 per straw/\$40 per certificate.

## 5TH ANNUAL SYDENSTRICKER INFLUENCE FEMALE SALE

Once again, we will sell 340 head of customer-owned bred heifers, mostly commercial, all sired by or bred to SydGen herd sires. It will be at 7 p.m. on November 23, at the Callaway Livestock Market, Kingdom City, MO.

*The fastest way to get there is to buy the right genetics.*

The sale book for the 24th Annual SydGen Production Sale is included with this *Angus Journal*. It contains a wealth of information on these sires, as well as progeny photos to help you evaluate how they can be used in your program. Better yet, come to our sale and see them firsthand!

## SAF Focus of ER

FOCUS was the most widely used A.I. sire in the breed until his death last spring. His sons and daughters have topped sale after sale as their combination of low birth weights, high growth, and carcass quality is hard to beat. \$70 per straw/\$40 per certificate.

Semen and certificates are readily available on most herd sires. Call (573) 581-1225.

## SAF Millcreek Charisma

This top son of White Oak Precise puts a world of mass and rib into his progeny. With Precise semen hard to get, CHARISMA may be the bull to look to. \$25 per straw/\$40 per certificate.
