

# WE SELL VALUE (AND LASSES)

And we will once again on November 22

**SAF ROYAL LASS 5158**

Selected for \$6,000 as a bred heifer from our 1996 "Mission: Possible" Sale by Grandview-Womack. "5158" topped their 2001 sale at \$48,000 to Kahn Cattle Co., going on to sell in their recent dispersion for \$100,000 to Southern Cattle Co. as one of the highest valued cows in the offering.

SAF Royal Lass 5184, her flush sister, selected for \$4,000 in our 1995 offering by Bill Fretwell, topped his 2000 Consolidation Dispersion at \$26,500 to NER Farms.

This maternal sister to 5175, 5158 and 5184 has been called by many as the most powerful 6807 daughter they've seen, and will be one of the many descendants of Leachman Lass 1004 featured in our 2003 offering.

Beginning March 30, 1986, with the birth of SAF Royal Lass 6089, we believe we have developed the largest nucleus of Lass females in the breed today, and we'll feature many of them on November 22. In our 2002 50th Anniversary Sale, three of the four top-selling bulls and all five of the top-selling fall yearling heifers were "Lasses".

As the top yearling weight and top-selling fall yearling bull of our 1999 sale, this herd sire son of SAF Royal Lass 6224 has proven to be an exceptional sire of muscle and fleshing ability for Mogck & Sons, Olivet, SD.

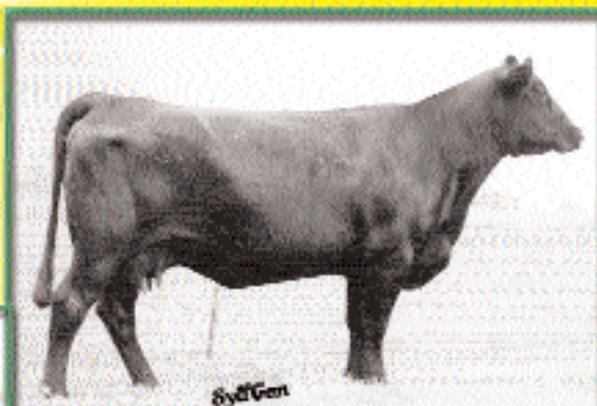

**SAF 396 NEUTRON 8293**

*"The success of our program depends upon the success of our customers"*

**SAF 598 BANDO 5175**

This \$2,800 selection of Elm View Angus from our 1995 sale topped their 1998 dispersion at \$6,000 to Schaff's Angus Valley, and became one of the highest-selling Angus bulls at Genex, grossing over a million dollars in semen revenue despite a chronic hoof infection, which resulted in his untimely death.

**SAF ROYAL LASS 6224**

*Always Available from Sydenstricker's*

	Semen	Certificate
SAF Connection	\$25	\$40
