+3	+3.3	+44	+85	+5	+31

Calved September 26, 2005 • Reg. No. 15200616

This will be our largest offering of Corona progeny, and this powerful fall yearling stems from the 1998 Missouri Angus Futurity top-selling female SAF Mabel 6044 that became a featured donor at Wilde Angus, Shevlin, MN.

28th Annual Production Sale

10 a.m. at the farm, November 18, 2006

As always, the herd bull prospects will run deep in this year's offering of 120 fall yearling bulls and 120 January bull calves. These are the best performing calves we've ever had, with EPD profiles to match, and all backed by the power and adaptability of the SydGen cow herd. This sale has historically produced many sires that have gone on to become breed leaders, and this year's offering should be our strongest yet.

We will also offer 72 head of heifer calves . . . our freshest genetics, along with some frozen embryo packages from our top donors.

Later that night, we will host our 9th Annual SydGen Influence Sale, with more than 400 commercial heifers expected. All will be sired by or bred to SydGen sires.

Make plans now to be with us on November 18, 2006, for one of the unique sale events of the season. We think you will enjoy it!

More Than 800 Head Sell In One Day!

Our sale book will be included with your November *Angus Journal*. Call 573-581-1225 for more information, or visit our Web site to connect to our sale book online in late October.
