\$20

Owned with Belle Point Ranch, Lavaca, AR
This maternal brother to 5175 and Prestige was the \$47,500 top-selling bull in our 2005 Sale, where his flush sister sold for \$25,000 and \$21,000. Triumph was one of the most talked about bulls on display at this year's National Western Stock Show.

Owned with Snake Creek Ranch, Morrill, NE, and Mike Kasten Beef Alliance, Millersville, MO.
Of all sires on the young sire summary with progeny scanned, Corona is ranked third for both IMF and \$B. His first daughters in production look tremendous. Use Corona to add uniformity, natural thickness and good temperament.

Owned with Woodlawn Farms, Creston, IL, and Slagle Angus, Sargent, NE.
The popular top-selling bull at the 2005 National Western Bull Sale, Charge On is strong for body length, thickness and structure. His dam and younger brother were the top-selling pair in the 2005 Woodlawn Dispersion, and his first calves are impressive.

Owned with Woodland Farms, Savannah, MO
One of the great young curve-bender sires in the Angus breed, and a very popular display bull on the National Angus Tour. Two flush sisters are the first and seventh ranked cows in the Angus breed for \$W and his dam is ranked 35th. Ten embryos from his dam sold for \$15,000 in the 2006 Foundation Female Sale.

These four top young sires and many others are available direct from SydGen by calling (573) 581-1225 or contacting us through our Web site at www.sydgen.com. Most of our sires are featured in the ORigen Sire Directory mailed with your March *Angus Journal*. We offer free round-trip UPS shipping on orders totaling \$500 or more, and volume discounts on orders of 50 units or more. AI certificates are all priced at \$40.

The EPD profiles of these four sires place them at the cutting edge of Angus genetics available today. All four are being used heavily in our program, as well as in herds across the country. They are our future and they could play an important role in yours.

Most all of our herd sires are available direct from us, ORigen and many independent semen distributors. Some are available through ABS Global. For information on how we think these bulls should be used, or to place your order, call (573) 581-1225.

More SydGen Sires available to you are featured on page 51.
