

2006 . . . It Was a Very Good Year!

Owned with Hoover Angus Farm, Tingley, IA
With his first calf crop totally processed, CC&7 debuted on the Main Sire Summary as the Number 1 Sire for Docility EPD and the Number 12 Sire on the \$B index. Consistent with his individual REA scan of 17.3 sq. in. and his top-ranking 365-day adj. YW of 1,467 lbs., CC&7 ranks in the top 1% of current sires for REA, WW, YW, \$F and \$B.

Breeders across the country are impressed with their CC&7 progeny. His 19 yearling sons at the Hoover Angus sale in February averaged \$7,187, topped by the \$47,500 Hoover Dam. His dam is proving to be a prepotent source of muscling genetics, with 9 progeny scanned at 110 REA ratio yet still posting 102 ratio for IMF. Semen \$25

The two highest-performing bulls from the 2006 SydGen Calf Crop, and now the two highest ranked \$B Sires on the Main Sire Summary that were born in 2006!

SydGen CC&7 [AMF-NHF]

	+30.34	+69.81	+50	+65	+0.09

Owned with TK Angus, Gordon, NE
Mandate's first calf crop has earned him an incredible EPD profile, near the top of the breed in every trait. He has debuted on the Main Sire Summary as the Number 7 \$B Sire, and his sire is the only bull on the Sire Summary to exceed his combined \$W and \$B Value of +\$110.46. He is also the only negative BW EPD proven sire to rank in the top 1% for both \$W and \$B.

He also ranks in the top 1% of proven sires for CED, WW EPD, YW EPD and \$F. The Mandate calves seem excellent on Docility, and his sons exhibit superior scrotal development. Mandate sired the top-selling bull in the 2009 TK Angus Bull Sale, and his progeny scanned are averaging 112 ratio for %IMF. Semen \$25.

Owned with Three Trees Ranch, Sharpsburg, GA, and 7L Farms, Wiggins, MS
Forward entered the spotlight as the top-selling bull of the breed's 2006 calf crop when he topped the 2007 Connealy sale at \$160,000 after posting an adj. YW of 1,495 lbs. and scanning a 17.1 REA. His proof has substantiated his performance, and he now ranks in the top 3% of current sires for YW EPD and the top 2% for REA EPD, while maintaining a CED EPD in the top 15% for current proven sires.

Forward has surfaced as a breed source for muscling and performance, yet with moderate BW and positive SC. His calves are consistently long and thick-made, and have been well-received wherever they have been offered. Semen \$30.

Semen is available by calling our farm office at 573-581-1225. Semen is also available through the ORIGen network, including many independent distributors and all representatives of ABS Global. AI certs on all SydGen sires are \$40.
