

# The Finest Products of the Breeding Art

Previous ads have documented some of the top proven females that will sell this year. This issue gives you a glimpse of "the newest generation of Sydenstricker Genetics." Next month's *Angus Journal*® will include our sale book, with even more information on the powerful calves, bred heifers and yearling bulls to be offered.

Offering Buyer's Choice of these two unique flush brothers who were both used here in natural service this spring. Their sire is the rare and valuable Number 7 \$B sire on the main summary, DAAR Infinity 313, and their dam is the \$85,000 SydGen Forever Lady 4087, making them maternal brothers to the breed's Number 1 Docility sire, SydGen CC&7. Half interest and full possession will sell on one of these sires, and the other will be retained here for natural service. Another full brother will be offered in the fall yearling bull division, along with two maternal brothers by SydGen Mandate 6079. A maternal sister by Mandate will be featured in the fall heifer division, and two maternal sisters by MCATL Reachout will be featured in the spring heifer calf division. Her natural fall yearling son by Basin King U127 will be another highlight of this event to make this the largest offering of maternal sibs to SydGen CC&7 to ever be offered.

One of the top combinations of phenotype, big spread and carcass quality in the offering is this daughter of the Oak Ridge Angus herd sire SydGen Diamond 8499. Diamond is a flush brother to SydGen Storm, working at Hoover Angus, and to SydGen Jaguar, in natural service here. They are all maternal brothers to SydGen Turbo 6684.
