SydGen Mandate 6079

SydGen Googol 0413

SydGen CC&7

Our strong suit has long been the production of breed-leading herd sires, and our featured Lot 1 for this special event will be the opportunity for you to "Create the Next Great One" by flushing any female in our herd to the bull of your choice. These females include the dams of the sires pictured in the right-hand column, maternal sisters to the sires pictured in the left-hand column, and many more exciting females. Never before offered in our 60-year history, this Lot will offer tremendous up-side potential to the winning bidder.

A recent sort of the entire breed's current dam listings turned up only 38 females, of which 22 carry the SydGen prefix, and 17 are available for this flush opportunity. (Criteria were top 5% \$B; top 20% for WW, YW, Docility, Heifer Pregnancy, Marbling and \$W; top 50% for Scrotal and REA EPDs.) These are the kind of cows that can make herd sires!

You will find as many strong combinations of \$W and \$B in this offering as anywhere in the country. Our long-term commitment to multi-trait excellence combined with sound structure, fertility and efficiency have allowed us to produce herd sires that have been well-accepted in programs around the globe. Join us on November 17 as we unveil the newest generation of Sydenstricker Genetics, and celebrate our 60th year in the Angus business.
