

SydGen Forever Lady 4087

4087 is the \$85,000 highest-valuation cow ever sold at SydGen, already with an enviable record for herd bull production. Co-owned with Indian Springs Angus, Duck River, TN. In this issue, we feature three of her sons.

... My Three Sons

CC&7 is the first natural calf out of 4087. As the Number 10 sire for registrations in fiscal 2011, and Number 4 in fiscal 2012, CC&7 has earned a high-accuracy EPD profile that is useful, salable and profitable. Hoover Angus have sold 158 sons for \$1,031,730 since 2009 to average \$6529. CC&7 recently debuted as a Pathfinder® Sire with a very high percentage of his eligible daughters qualifying, demonstrating the breed-back of his milking daughters may be as strong as his HP EPD that ranks in the top 5% of proven sires. Docility and Milk in the top 1%, \$B in the top 2% and REA in the top 3% of proven sires. Number 2 RADG sire in the breed at his accuracy level.

Owned with Hoover Angus, Tingley, IA. \$30 per unit.

This sire-line descendant of GT Expo and Scotch Cap preserves one of the breed's most proven sources of carcass merit. In fact, he traces four times to Scotch Cap, the most heavily used son of one of the breed's few RTF designated sires, PS Power Play. **GOOGOL** was the \$25,000 top-selling bull in the 2011 SydGen Production Sale, going to Springvale Ranch, where he was a popular attraction of the Montana Angus Tour for his smoothness and athleticism, docility, depth of heel and foot structure. GOOGOL's first daughter to sell brought \$7,000 as a 5 ½ month old heifer calf at the 2013 Missouri Angus Futurity. His first calves at Springvale Ranch are just now being born.

Owned with Springvale Ranch, Hot Springs, MT. \$20 per unit.

As the only calf resulting from the mating of "Whiskey" to the powerful 4087 cow, **JACK DANIEL** brings a powerful pedigree, exceptional performance, and a strong genomic profile to the table. The few "Whiskey" sons available are surfacing to the top of many programs, and this is the only one out of 4087. With an actual BW of 86 lbs. and an adj. WW of 759 lbs., JACK DANIEL was developed through the heat of last summer on a limited ration with plenty of exercise. At 366 days of age, he weighed 1,328 lbs. and had a 42 cm SC measurement. He will see extensive use in the SydGen and Indian Springs programs this year and is currently standing at ORigen.

Owned with Indian Springs Angus, Duck River, TN. \$25 per unit.

Several other sons of 4087 are in service in leading herds and her story is far from over . . .
Semen can be accessed on these and other sires direct from SydGen, through the ORigen network, or from representatives of ABS Global.

8th Annual SydGen Influence Sale
April 9, 2013, at New Cambria, MO
Selling 86 performance-tested Angus bulls and
13 registered Angus females.
Sale books by request only.
