3	BWF	Natural sired to calve last half of March	Fetal sexed with bull calf
1	BWF	AI bred on 5/24/18	Fetal sexed with heifer calf
2	BWF	Natural sired to calve in April	Not fetal sexed

Calves of AI bred heifers are sired by Sydgen Blacksmith 4010 (AAA 1781732) + 12 CED, or Sydgen Exceed 3223 (AAA17501893) + 11 CED. Most heifers offered were naturel sired by Sydgen bulls. 150 mostly natural sired brothers of heifers offered fed at Next Gen Cattle Feeders, Hugoton, KS. Steers harvested in September and October on grid at Tyson, Holcomb, KS.

Our steers graded 97% Choice or better, 9% Prime and 50% Certified Angus Beef.

Operational History

Mershon Cattle is a commercial cattle operation run by the Mershon family in Jackson County, Missouri. This year is the sixth consecutive year that our bred heifers have been in the Sydgen Influence Commercial Heifer Sale. We have used Sydgen bulls and semen since 2004. The herd consists of Angus based, cross-bred cows that have been AI bred using Hereford and Charolais semen. Steers are retained and sold on the grid. All heifers offered are from our home-raised cows.

Herd Health

Prior to weaning in 2017:
