

Missouri Angus Futurity February 22-23, 2020

We're bringing our Best!

Daughters of SydGen 928 Destination 5420 "Whiskey" are some of the most sought-after females in the breed, and this is his Number 5 active daughter for both Marbling and REA EPDs, as of this writing. From one of our strongest cow families, her Prophet-sired dam also produced a \$13,000 feature bull in our 2018 sale to Lazy H Ranch, Hays, KS. Re-named SydGen Ozark, he is a Rock Star son posting a +300 \$C Value, and is being incorporated back into the SydGen program. The first cow "off-the-pedigree" on her maternal lineage is SydGen Forever Lady 4087, the dam of CC&7, Wake Up Call and Googol. Photo was taken in September just after calving and she has continued to develop into a very special young cow. Her SydGen Enhance heifer calf at-side, 9386, will sell separately. Note her \$C Index Value. We have consigned what we feel is our top fall heifer calf pair to the Missouri Futurity for many years and feel this is one of the strongest genetic combinations ever.

SydGen Forever Lady 7829

From the first calf crop by the \$18,000 SydGen Resolve 7132, owned with ST Genetics, Brandt Angus Farm and High Point Genetics, this powerful heifer is out of a two-year-old daughter of Sitz Royal 9784 also from the Forever Lady family, going back to the dam of Contact. She ranks in the upper 1 or 2% for YW, RADG, SC, CW, REA, \$F, \$B and \$C.

Sale books may be requested from us, or from the Missouri Angus Association. See page 75 in this issue.
