

Watch for our consignment to the
2004 Missouri Angus Futurity.

February 28-29, 2004
Columbia, MO • Sale Time • 11 a.m. • February 29, 2004
Sale Day Phones (573) 882-3355 or (573) 473-9202

Rising to the top of our fall-calving two-year-olds is this thick, broody daughter of PAPA Durabull 9805. Her dam is sired by SAF Excel 7110, the outcross Mindbender son from the Royal Queen family that is well noted for his ability to sire slick-haired progeny. Her grandam is the popular "Sugar" cow, SAF Forever Lady 4123, whose record now stands at 6 WR-110, 4 YR-105, and is from one of the strongest maternal lines ever identified in the Angus breed.

With an individual IMF score of 5.02 to ratio 129, and an Adj. REA of 10.5 to ratio 107, 1335 offers a strong, well-balanced EPD profile for all carcass, ultrasound, growth, and fertility traits. For even more added value, her September 22, 2003, heifer calf at side is by SydGen Sterling 0298, the highest %IMF sire on the young sire summary, and second only to Future Direction among all proven sires for this very important quality trait.

SydGen Forever Lady 1335 is already a proven donor with ten transferable embryos produced on December 5, 2003, retained to maintain her place in the SydGen program.

From our first calf crop by the proven curve-bender high muscle sire, Circle A Fame 9493, SydGen Lass 3272 is a top junior show prospect. 9493 was the top-selling bull in the 2001 Missouri Angus Futurity, and a member of the Circle A Pen of Three at the 2001 National Western Stock Show. He is a great-grandson of Rita 5H11. The dam of 3272 records 3 BR-99 and 3 WR-103. 3272 exemplifies the thickness and natural fleshing ability that 9493 transmits.
