The 29th Annual Sydenstricker Production Sale will include many top donor females, and as always, will be a virtual dispersion of our seven-year-old females. This deep-ribbed power cow has a production record of 3 BR-101, 3 WR-114, and 3 YR-112 to rank her in the top 1% of proven dams for Milk EPD and the top 5% for YW EPD. Seven progeny scanned have earned her a REA EPD in the top 2% of proven dams and a Fat EPD in the top 10%, indicating this high maternal female can improve yield grade dramatically along with her IMF EPD ranking in the top 20%. 0487 was selected as a six-month-old heifer calf from the 2001 Three Trees Production Sale where her dam was the \$28,000 third high-selling cow of the day. She has been flushed 5 times, averaging over 9 transferable embryos, and six sons at auction have averaged \$5,875. Sons will sell by SAF Connection, SAF 598 Bando 5175, and SydGen Focus 2088, and her first daughter to ever sell will be sired by SydGen Focus 2088. 0487 will sell bred to SydGen Right Gard.

SYDGEN STERLING SILVER 3471

This \$15,000 son of 0487 was top WW, YW, and REA of the 2003 SydGen fall calf crop, selling to KCS Angus, Novinger, MO. He currently has 34 progeny scanned with an average IMF ratio of 108 and REA ratio of 101.

SYDGEN FOREVER LADY 2352

The first natural calf from 0487, this SAF Focus of ER daughter now records 2 BR-101, 2 WR-115, and 2 YR-113, and is the dam of SydGen Forever Lady 4556.

SYDGEN FOREVER LADY 4556

The Grand Champion and top-selling female of the 2007 Missouri Angus Futurity, this top daughter of SAF Directive is also a granddaughter of 0487 and sold one-half interest to Schuering Cattle Co., Andover, SD, for \$24,000.

Always available from SydGen
Semen and certificates from most of our herd sires, as well as the entire ORlgen line-up.
