

THE FASTEST WAY TO GET THERE IS TO BUY THE RIGHT GENETICS

30th Annual Production Sale
November 22, 2008
10 a.m. at the farm

As the first calf from the up-and-coming young 4413 donor at SydGen, this powerful two-year-old offers breed-leading marbling genetics with tremendous capacity and fleshing ability. He ranks in the top 25% for CED, and his first calves indicate he could get better yet. Sired by the 14th-ranked sire on the main sire summary for Marbling EPD, TRUST was selected for natural service duties after posting 144 IMF ratio with a 15.6 REA.

TRUST has been used naturally for three seasons, is good-footed and a sound breeder, and heifers will calve to him this fall. His grandam, a maternal sister to SAF Focus of ER, was the \$20,000 top-selling cow of our 2007 event to Pitts Angus, Hermitage, MO. Selling one-half interest.

We're offering a Buyer's Choice on what many feel is our top two-year-old heifer calf pair. Darla came to us as a featured heifer calf in the 2006 Belle Point Sale, and offers a well-balanced EPD profile that is especially strong on Marbling and \$B. Her dam was the top-scanning and first pick heifer from the 2001 Connealy calf crop, and a maternal sister to the \$35,000 top-seller Connealy Forecast. Grandam is the \$220,000 top-selling cow of the 2007 Sandpoint Sale. Buyer will choose between Darla or her January 10, 2008, heifer calf at side by SAF Connection.
