Selling as a feature of our 2016 event to Silverado Farms, W. Des Moines, IA, B244 will have several progeny featured in this year's sale. She was originally selected as our pick of the two-year-old females at Tehama Angus Ranch, and is from a long line of donors at Tehama, as well as the same family as the \$420,000-valuation BCA Mary Blackbird 2742 at the recent High Roller Angus sale, a daughter of SydGen 928 Destination 5420 "Whiskey."

B244 has earned a very impressive EPD profile and her progeny selling in November include three fall yearling sons and one fall yearling daughter by the \$113,000 SydGen Fate 2800, and a January heifer and bull calf, both sired by "Whiskey."

We will sell about 500 head of registered Angus cattle on the 18th of November, along with approximately 200 head of commercial bred heifers from our customers. Herd bull prospects, donors and production-oriented females with balanced-trait EPDs designed for multi-trait excellence. Stop by anytime to preview the offering.
