**The Definition of Multi-Trait Excellence, and the Number 1 Sire for Registrations in Fiscal Year 2020.**  
The \$60,000-valuation co-top-selling bull of our 2015 sale has now proven his value for multi-trait excellence and the \$Combined Index. With a high-accuracy proof, he also ranks in the top 1% for \$B, RADG and \$F; the top 3% for Docility and \$G; the top 4% for MB; and the top 5% for YW. This will be our largest offering of Enhance progeny and will include several paternal brothers and sisters as well, by SydGen Exceed 3223. He has sire sale toppers from coast to coast and his name in the pedigree adds value. Semen \$30.

### 23rd Annual SydGen Influence Heifer Sale

After our production sale, at about 7 pm, we will host our annual commercial heifer sale at Callaway Livestock Center at Kingdom City, MO. Several of our best customers will sell about 130 head of top commercial bred heifers.

If you sort the top 100 SC Sires on the Main Sire Summary, eight carry the SydGen prefix and another is co-owned. Generations of selection for multi-trait excellence have created cattle that can do it all, in the traits that are currently measurable. Even though SC may not be quite the perfect scenario for your particular program, it is certainly a good starting point to select breeding animals that will keep your herd moving in a profitable direction.
