Our upcoming production sale, as always, includes all our salable seven-year-old production cows. This powerful donor will be included, selling in her entirety. She is the dam of our \$240,000-valuation record-setting Gavel and produced two other sons at \$9,000 and \$6,500. Her production record is second to none, with 5 BR-98, 4 WR-116 and 4 YR-112. 14 progeny have ratioed 107 for %IMF and 99 for REA. One-half interest was purchased from Knoll Crest Farms, Red House, VA, as a feature of the 2017 Bases Loaded event and she has continued to perform beyond expectations. Updated breeding information will be in our sale book, but she has averaged 9 transferable embryos in four conventional flushes while at SydGen.

Gavel became our highest-valuation bull ever, when one-third interest sold in our 2019 Sale for \$80,000 to Mogck & Sons Angus, Olivet, SD. He has been used AI by several top herds and has many fall-born 2020 calves that are getting the attention of top breeders. His first major offering of progeny will be features of our November 20 sale.

Only two sons, both by natural service, were born at SydGen in the spring of 2020 and SydGen Bang GA 0346 turned in excellent performance to earn the attention of many at the 2021 SydGen Influence Sale in April. He weaned at 114 ratio, gain ratioed 118 and posted adj. YW ratio of 116. He scanned 7.07 %IMF to ratio 125, along with an 18.0 sq. in. REA to ratio 113. He topped the Influence Sale at \$21,000 to Borkowski Angus Farms, Elliott, IA, and Boot Hill Farms LLC, Hamilton, MO.

Thanks and congratulations to the many buyers, sale crew and consignors in the Sixteenth Annual Spring Influence Sale where 50 registered Angus bulls, mostly yearlings, averaged \$5,040, three fall bred heifers did \$2,750 and 29 two-year-old pairs, mostly commercials, averaged \$2,874.

Semen and AI certificates always available on our herd sires. Visit [www.sydgen.com](http://www.sydgen.com) or call 573.581.1225 for more details.

We now have Sexed Ultra 4M semen available on Enhance.
