

Looking forward to November 21!

42nd Annual Production Sale At the farm • Mexico, MO

We'll be featuring an excellent set of bred heifers this year, led by the two females featured below. They were developed without creep feed, fed some silage and supplement through the winter, AI bred in April and ran on grass alone with natural service sires to about June 1. About 70 fall pairs, 40 spring heifer cows, 20 bred spring calving cows and 80 fall yearling heifers will round out the female offering. Right now, we are planning to offer about 100 fall yearling bulls and 75 January bull calves.

Lot 1 will be the Number 1 SC female in the entire SydGen herd. She ranks in the top 15% or better for 18 important traits and indexes. This elegant daughter of Enhance is out of a two-year-old daughter of EXAR Stud that is out of SydGen Entense 1120. 1120 was the "covergirl" of our 2016 sale, bringing \$27,500 to Express Ranches, where she now serves as a donor. 9068 had an individual BWR of 104 on a 73 lb. BW and went on to ratio 106 at weaning and 110 at a year, with a moderate frame score. She scanned 6.43% IMF to ratio 99 with a 10.8 adj. REA to ratio 115. Rib and rump fats were .16 and .13 to ratio 100 and 72. She bred on her first service

SydGen Entense 1120

AI to SydGen Big Branch 6653, the 2018 Missouri State Fair Grand Champion Bull and a top performance and calving-ease sire as well.

Another feature will be the Number 1 SC daughter of HPCA Early Bird 65 in the breed. Her dam is our Number 1 SC daughter of Enhance in production and is also one of our very top females on the Leachman SP index. The Missouri Blackbird family has long been one of the top female lines we have identified for hair shedding ability. Also incredibly strong on the SC index, she ranks in the top 15% or better for 16 important traits and indexes. Her BW was 63 lbs. to ratio 91 and she recorded WWR of 104 and YWR of 108. She scanned 8.64% IMF to ratio 133 with a 10.8 adj. REA to ratio 115. Her rib and rump fat measurements were .18 and .23. She is due to calve February 28, to SydGen Spirit 7219, the "Whiskey" son out of the dam of SydGen FATE 2800.

Your sale book will be included with the November issue of *Angus Journal*®. Contact us for additional information.
