

44th Annual Production Sale

November 19, 2022

10 a.m. - Mexico, MO

Sydenstricker Genetics
 *Since 1952*

WELCOME TO SYDENSTRICKER'S 44TH ANNUAL PRODUCTION SALE

Dear Cattlemen,

Welcome to our 44th Annual Production Sale as we celebrate 70 years in the Angus business. We thank all the customers, supporters, competitors and employees who have been important to us along the way! We are proud of the Angus history that has been made here, as well as our sales history that includes some of the breed's most valuable animals, yet also includes cattle that "anyone can afford," to quote Ralph Sydenstricker.

The demand for CAB® and Prime beef continues to be a bright spot in the beef industry. No other country in the world can compete with us in the production of high quality beef. That is our strength in the world marketplace. Investing in quality breeding stock on today's market will help you be ready for better prices later.

We believe the Angus cow is the most efficient in the business, and the breed will continue to dominate the genetics of the commercial cow herd. Our EPD system has allowed us to characterize Angus bulls very specifically, so when a commercial producer buys that bull to do a certain job, he will do that job. That reputation has been the driving force for the popularity of the Angus breed in the commercial sector today. The on-going weather stresses of the last several years reinforces the flexibility of the Angus cow.

We regard our position in the beef industry as research and development, finding and proving the sires that can force their way past the genetic antagonisms inherent in beef cattle production. We like to do that with as much diversity of bloodlines as possible. However, we continue to strongly pursue multi-trait excellence, not giving up the progress we've made solely to bring in new blood. These cattle need to excel on the measurable EPD traits to insure our customers' profitability, and they must be sound, fertile and efficient. The use of multiple bloodlines just gives us and our customers more options to select from, and more genetic diversity for the breed.

As always, we will do our best to inform you, our customer, with all the information we can to help you make good buying decisions. All breeding animals selling are either tested free of AM, NH, CA and D2, or have no pedigree risk. All animals at risk for M1 and DD are tested, and sell as is. As time has gone on, we have seen the accuracy of genomic evaluations increase, and every animal under two years of age that sells, is genomic tested.

We hope you will be with us November 19th to give us your evaluation. Come early Saturday morning and enjoy our Missouri country breakfast before the sale. If you cannot be here, our sale will once again be broadcast live on the internet by DV Auction.

For more information on any of the cattle in this offering, or if we can assist you in making travel arrangements, please call the farm office at (573) 581-1225 or the dealership office at (573) 581-5900.

We look forward to seeing you!

Sincerely,

Eddie L. Sydenstricker

Ben W. Eggers

Front Row: CHASE MONTE, KIM SYDENSTRICKER-MONTE, SYDNEY BRISCOE, CONNIE SYDENSTRICKER, EDDIE SYDENSTRICKER, PAIGE BRISCOE, BLAKE BRISCOE, LEE ANN SYDENSTRICKER AND BRITTON BLOCK.

Schedule of Events

Friday • November 18, 2022

8 a.m.

Cattle available for inspection

6 p.m.

Hospitality hour at the Empire Club

7 p.m.

Dinner at the Empire Club

Saturday • November 19, 2022

8 - 10 a.m.

Missouri Country Breakfast

10 a.m.

SYDENSTRICKER GENETICS

44th Annual Production Sale

(Angus Burgers Served After 1 p.m.)

Females, Flushes, Embryos and some Herd Sire Prospects

12 p.m.

The Bull Sale

• Fall Yearlings

• Spring Bull Calves

2 p.m.

Continue with the female sale

4 - 5 p.m.

Conclude the Sale

Thursday • December 1, 2022

25th Annual Sydenstricker Influence Commercial Heifer Sale

6 p.m.

Callaway Livestock (New Date)

L to R: BOB POAGE, EDDIE SYDENSTRICKER, KENNETH ROBERTS, RONNIE GIPSON, BUB RAITHEL, COOPER ERVIN, CODY WHEELER, BLAKE MCDONALD, KYLE VUKADIN, TANNER MACDONALD, WYATT RAITHEL, DARLA EGGERS, BEN EGGERS.

**S A F FOCUS OF ER***About the Cover*

SydGen Exceed 3223 running with cows this past spring as a nine-year-old. In his first season of natural service, in 2014, he sired the \$30,000 SydGen Enhance who ranked 13th for registrations in the Angus breed in 2019, Number 1 in 2020 and 2021, and Number 3 in 2022, and has over 16,500 progeny recorded. Exceed himself, among sires with at least .85 accuracy for YW and .65 for CW, is the Number 3 sire in the breed for \$Combination. SydGen Merit, SydGen Bullion, SydGen Enhance 5164 and SydGen Transcend are other sons we have used in our program by this powerful sire.

Price Range of the 460 Bulls in our 2019, 2020 & 2021 Sales

SydGen Herd Sires

Our herd sires, including some not referenced on this and the next 11 pages, are responsible for over 140,000 progeny in the AHIR database, of which over 56,000 have ultrasound scans, along with over 6,000 progeny on Australia's Breed Plan. More than 41,800 daughters of these sires have had calves reported on AHIR, and over 3,750 progeny have been reported through carcass evaluation. Genomic scores have been done on over 27,600 progeny. We have 62 sires owned or co-owned by us on the 2022 Sire Evaluation Report. Most of these sires are available to you via artificial insemination, and semen can be ordered through our farm office, from ORigen Cattle Services, Huntley, MT, and from many local distributors, including ABS representatives, on many sires. We have semen prices printed at the end of each footnote on sires available directly from us, and all AI certificates are priced at \$40. If you would like to pick up semen on sale day, please let us know in advance so we can have ample supplies.

Some of these bulls will be on display sale day. Others are at their respective co-owners' farms, depending on ownership of the possession interest. All of the SydGen AI sires do see natural service duties; we think it's important for proper development of the bull.

Our Mission

"To insure the success of our customers by developing predictable Angus genetics that excel in all the economically important traits, including carcass quality and cutability, feedlot performance, roughage conversion, maternal traits, fertility, disposition and soundness – thus allowing them to consistently and profitably produce a high percentage of finished cattle that meet Certified Angus Beef™ specifications."

Ralph Sydenstricker began his farm machinery business in 1944 with an International Harvester dealership in Paris, MO. One of his salesmen, Grant Dickson, came in one day in the summer of 1952 and told Ralph he believed he could sell the Super C Farmall tractor on the lot, if Ralph would take two registered Angus cows with heifer calves on the trade, and allow the customer \$1,000 apiece for them. Ralph, Grant, and 12-year-old Eddie went to look at the cows and close the deal.

Eddie and his sister, Betty Jo, became very active showing in 4-H and FFA. Eddie was involved in forming the very first junior Angus association in the U.S., when, in 1956, the Missouri Junior Angus Association was organized at Monroe City, MO. Eddie served as the first President, assisted by Ronnie Rodgers, vice-president; Fred Blades, secretary; and Liz (Moore) Coon, treasurer. Lyle Haring, regional manager for the American Angus Association, and Ed Stout, Missouri Angus Association fieldman, were instrumental in this project. Later, Eddie was selected by Dean Hurlbut, the newly appointed Director of Activities at the American Angus Association, to participate in "An Angus In Your Future," a film produced by the Association to encourage youth to get involved with Angus cattle. Eddie continued his involvement in FFA, serving as State Secretary in 1957-58, and receiving the American Farmer degree in 1960.

Ralph teamed up with Jim and Ray Blades in 1959 for their first production sale. Col. Roy G. Johnston was the auctioneer, and the ringmen were Lyle Haring, Mark Dempsey, Wes Hays, Veryl Jones, Ed Stout, and Nick Iman. Ralph continued to have production sales through the sixties. The top bull in his 1964 sale was a son of TA Ekonomist 7 that sold for \$1,000. Ralph was elected President of the Missouri Angus Association in 1966. In 1960, the family moved the cattle to Mexico, MO, as Ralph purchased the John Deere dealership in Mexico. Eddie and Connie were married in 1961, and lived in Macon from 1965 to 1969, managing the International dealership they acquired in 1965.

In the seventies, Ralph stepped up the pace a bit, and, looking for a little more growth, imported several heifers and bulls from Canada. Twenty females with a total price tag of \$21,980 were brought to Mexico, MO, in December 1974. He found Happyvale Olympic 012H at the side of his dam in June, 1976, and returned later to Canada to make him the top-selling bull in the Happyvale sale at \$20,000.

While Ralph was expanding the cow herd, Eddie and a talented mechanic named Van Botkins designed and campaigned the Cajun Queen pulling tractor, winning every National Championship there was. Eventually, John Deere Engineering at Waterloo, IA, took the engine from this tractor to develop the 466 cubic inch engine that was used in all the 40 and 50 series tractors made by John Deere for nearly twenty years.

Ralph decided he needed some help with the quality herd he was putting together, and, in search of a herdsman, scheduled Wayne Kestler to come to Mexico for an interview on January 6, 1977. Wayne Kestler did come to Mexico that day, as did many other Angus friends, but it was not to discuss the position of herdsman, it was to attend the funeral of Ralph Sydenstricker.

Eddie, busy with the dealership for many years, now had a decision to make, regarding the farm and the cattle. Obviously, he chose to continue the Angus operation, known as Sydenstricker Angus Farms, and to hire Wayne Kestler as herdsman.

Eddie wasted no time. In March 1977, he acquired Eisa BAS 89 for

\$2,000. She produced the \$33,000 SAF Windwalker and the \$12,000 SAF Windjammer during her tenure here. On June 21, 1977, Eddie acquired an interest in Happyvale Marshall Pride 013G, known as "Mighty Marshall." He was owned with Erdmann Angus, Wetonka, SD, and Jim Baldrige, North Platte, NE, and sired the Grand Champion Carload of Bulls at the 1978 National Western, along with the top selling pen of heifers at the 1978 Denver Foundation Female Sale. Although Ralph had had several sales over the years, Eddie began the Annual Production Sale in November of 1978.

An early female who left a mark on the entire Angus breed was Schearbrook Wendy N023, purchased for \$5,100 in June 1978. A son was grand champion and top selling bull at the 1981 Missouri State Sale, and she produced many other show ring champions.

Through the seventies and early eighties, Eddie and Connie's daughters, Kim and Lee Ann, showed extensively in junior shows throughout the country, perhaps highlighted by Lee Ann's last show heifer becoming the farm's first Missouri State Fair Grand Champion Female in 1984, with a descendant of Wendy. Kim and Lee Ann were both active in the Missouri Junior Angus Association their father helped start, and both served as officers.

Eddie served as treasurer of the Missouri Angus Association for many years, and served three years on the American Angus Association Board of Directors. In 1995, Eddie received the Livestock Person of the Year Award from the University of Missouri Block and Bridle Club.

The first Annual Production Sale was held in November 1978. The sale was managed by National Livestock Brokers, and the auctioneers were Jim Baldrige, Nick Iman, and Al Conover. The ring help that day were Veryl Jones, Tim Lackey, Paul Gibbs, Mark Dempsey, and John Barton, as 141 lots averaged \$1,332. In 1978, Don Simpkins joined the crew until his retirement in 1991.

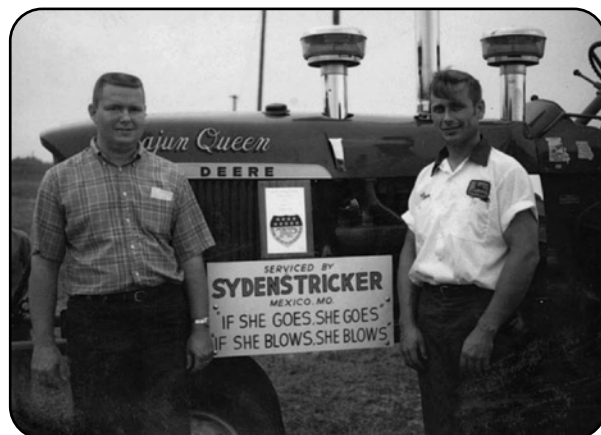

One of the most talked-about bulls of his era was Cracker Jack Baros 2459, better known as "Prime Rate." In the 1981 sale, the first Prime Rate calves were featured at the most successful sale held to that point. Col. Ray Sims and Col. Jim Baldrige cried the sale, with Veryl Jones, Dean Pike, Greg Garwood, Tim Lackey, Mark Dempsey, Lyle Eiten, John Barton, and "Doc" Smith working the ring. National Livestock Brokers managed the sale, and John Rudolph and John Ponticello served as consultants.

Bill and Li Bowman were hired in 1981, staying through 1989, and had a significant impact on the program during the eighties, exhibiting 34 State Fair champions in 1987 alone. Ben Eggers joined the team in 1982. Many other good employees have come and gone through the years, including Charley Boyd, Lewis Moten, Dale Randolph, John Ripperger, Randy Graham, Bonnie DeYoung, Todd and Tracy Ragsdale, Ed and Mandy Raitchel, Dan Sharp, Allen Robinson, Randy Ray, Ken Rhodes, John Schneider, Travis Sharon, Brent Schuering, Matt Gruber, Nelson Groves, Josh Lewis, Stacy Loyd, Pat McCarty, Nick Schafer, Dave Pickrell, Suzy Harrison, Aaron Ishmael, Anthony Carey, Chris Beedle, Matt Rouse, Tyler Allen, Eric Allen, Sammy Breid, Jennifer Russell, Brad Porter, Brittany White, Roger Cranmer, Ryan Meyers, Cole Bass, Cash Prestien, Joe Strauss, Kyle Tate and Brad Slavens.

The eighties were an exciting time at Sydenstricker's, as the foundations were laid for many of the cattle we still have. The purchase of three females from the mating of Brost Power Drive to Leachman

MISSOURI STATE FFA OFFICERS, 1957-58. EDDIE SYDENSTRICKER, SECRETARY, SEATED FOURTH FROM LEFT. IN 1960, EDDIE RECEIVED THE AMERICAN FARMER DEGREE.

EDDIE AND VAN BOTKINS WITH THE ORIGINAL "CAJUN QUEEN," PERHAPS THE MOST FAMOUS PULLING TRACTOR IN HER DAY.

Lass 1004, two of them as heifer calf pregnancies and one as a \$19,000 heifer calf, gave us the base to produce such herd sires as SAF Fame and 5175. Also from Jay and Les Leachman, an \$18,000 heifer named Leachman Royal Queen 2027 founded the Royal Queen family here, eventually producing SAF Royal Queen 5084. A Rito 2100 GDAR daughter, Pride Queen T 4155, purchased at the NILE, put her stamp on the Angus industry with a flush of calves born in 1986 that included SAF Power Shaft 6021, the \$33,000 SAF Pride Queen 6013, and the record-holding highest selling bull and heifer to ever sell at a Missouri State Sale, the \$12,500 SAF Power Fix and the \$40,000 SAF Pride Queen 6012. Then, in 1989, in Manhattan, MT, we outbid three competing syndicates to acquire two-thirds ownership in VDAR New Trend 315, the bull who defined multi-trait superiority in his day, and set the tone for the Sydenstricker program through today.

In 1990, we shocked the Angus community by scheduling the Dispersion minus Fifty sale, where we sold down to 50 registered females in what turned out to be our highest-grossing sale to that point, proving that truth in advertising can work, and that at least 67 bull calves can be sold in Missouri on one day. No sale was held in 1991, so we used the extra time available to scour the country for fresh genetics to bring in. The deal to "pick" six heifers from the entire Gartner-Denowh heifer calf crop, on an alternating basis, turned out to be one of the best things we've ever done, as females like GDAR Forever Lady 178 and GDAR Forever Lady 246 have proven their value many times over.

Throughout the nineties, we put more and more emphasis on the commercial side of the industry, stepping up our carcass evaluation of herd sires, exploring new programs that could benefit our commercial customers, supplying more and more useful performance data to our customers through our sale books, and creating the Sydenstricker Influence Sales. We published our first Herd Sire Directory in 1993, the same year a calf named SAF Fame topped our sale at \$27,000, and actively pursued the direct semen sale market. We had the first 100-head bull sale in Missouri in 1996, where we also sold the top selling bull calf in our history, SAF Focus of ER, at \$68,000. In 1997, we received the CAB Seedstock "Commitment to Excellence" Award, primarily for our focus on carcass traits equally with performance traits. SAF Fame became the second most heavily used bull of the breed in 2000.

In 1993, Ben Eggers was elected President of the Missouri Cattlemen's Association, and served on various committees as well as the Board of Directors of the National Cattlemen's Beef Association. In 1998, he was elected to the Board of Directors of the American Angus Association, serving as President in 2006. At the Annual meeting in Louisville, Ralph was inducted posthumously into the Angus Heritage Foundation in 2004, and Eddie was inducted in 2006.

When we entered the new millennium, we took a big step. Wanting a distinctive prefix, and to send the message that we are selling genetics, not just cattle, we changed our name to Sydenstricker Genetics. In 2001, the first bull to sell with the new SydGen prefix, SydGen Refocus, broke his full brother's record to become our top selling bull ever, at \$100,000 for one-half interest.

At the 2001 Beef Improvement Federation meeting, we were awarded the Seedstock Producer of the Year Award, the most prestigious award in the seedstock industry, signifying the national impact of the Sydenstricker program. We also joined with several other seedstock partners

to found ORlgen, Inc. Ben served on the Beef Improvement Federation Board of Directors for eight years, and was elected President in 2011. In 2013, he received the Continuing Service Award from BIF, and in 2018 was named the Missouri Cattlemen's Association "Cattleman of the Year." Ben was given the 2022 Missouri Angus Pioneer Award.

In our most recent decade, we have been a tour stop on the National Angus Tour and the BIF Tour, as well as hosting part of the LEAD Conference in 2011. Eddie and Connie were inducted into the Honorary Angus Foundation in 2013 for their work in support of Angus youth.

Sydenstricker's of Missouri has received the Managers' Club Award, John Deere's highest award, many times. In 2013, they were named "Best-in-Class Farm Equipment Dealership" by Farm Equipment magazine. Eddie received the Missouri Angus Breeders' Pioneer Award in 2014, the Allied Industry Award from Missouri Cattlemen's Association in 2015, and the Livestock Person of the Year Award from the University of Missouri Block and Bridle Club in 2017. Sydenstricker's of Missouri now had 13 dealerships, and January 2, 2018 marked the beginning of a new era, with Ted Briscoe named as the new COO.

In October, 2019, a merger of Sydenstricker Implement Co. and Wm. Nobbe & Co., two family-owned John Deere dealer groups, was announced, with joint operations beginning in January, 2020. Ted Briscoe is the CEO of Sydenstricker-Nobbe Partners with 26 Missouri and Illinois dealerships. In 2021, SNP was named Farm Equipment Dealership of the Year. In 2022, Eddie was given the Honorary State Farmer Degree by the Missouri FFA Association.

Daughters Kim and Lee Ann are both involved in the dealerships, with Kim working at the Mexico location, and Lee Ann doing PR for all the dealerships. Grandson Chase Monte, Kim's son, exhibited at nine Missouri State Fairs, and seven National Junior Angus Shows, winning the Grand Champion Carcass Steer in 2014 and the Grand Champion bred-and-owned Carcass Steer in 2016, along with a class-winning heifer. Chase was President of the Mexico FFA Chapter in 2016, graduated from the University of Missouri in 2021, and is now the Scraper Product Manager at SNP. Grandson Blake Briscoe graduated from Vanderbilt University with a B.S. in Finance and is now an Associate at Wellspring Capital Management, New York, NY. Granddaughters Sydney and Paige Briscoe graduated in 2019 from Ole Miss. Paige is now the Sales and Marketing Coordinator at Citadel Partners, Dallas, TX and Sydney is a Marketing Assistant at Janet McAfee Real Estate, St. Louis, MO.

From the early Sire Evaluation reports printed twice a year, to today when a new National Cattle Evaluation is on-line every Friday, along with genomic-enhanced EPDs, bio-economic indexes, and the ability to DNA test for parentage and genetic recessives, we have seen technology change the face of the seedstock industry. We will continue to keep this herd at the forefront of the Angus breed, and supply our customers the genetics and the customer service they need to compete.

Our most popular AI sire in history has been SydGen Enhance, primarily because of multi-trait superiority. VDAR New Trend 315, born 34 years ago, was labeled with that phrase during his strongest days as an AI sire, and was our first bull to gross over \$1M in total semen revenue. Enhance traces to 315 nine times in his extended pedigree. As this goes to press, Enhance has been named the Number 3 sire for registrations in the Angus breed for fiscal 2022, after two years at Number 1, for a total of over 16,500 progeny recorded in the U.S.

PROUD LASSIE 1208, GRAND CHAMPION FEMALE AT THE 1979 MISSOURI STATE FAIR FOR KIM SYDENSTRICKER. LEE ANN IS HOLDING THE TROPHY.

- Owned with Spring Cove Angus Ranch, Bliss, ID
- "Whiskey" has proven himself as an exceptional outcross sire of muscle, growth and performance. He died unexpectedly from a hoof infection that got into the bone tissue. Despite limited usage, he is a dominant progenitor of all-around merit. Even though he would be over 17-years-old now, he still ranks in the top 4% for HP and top 10% for \$C.

SYDGEN FATE 2800

- Owned with Wiederstein Pure Angus Farm, Audubon, IA and Greiner Angus, Kalona, IA.
- The \$48,000 top-selling half-interest bull of the breed in the 2009 fall sale season. He was the Grand Champion Bull at the 2010 Missouri State Fair, and is a complete package for multi-trait improvement, including Claw, DMI, DOC and HS.
- Semen \$8

- Owned with Amoneit Farms, Byrdstown, TN
- A graduate of the 2010 Midland Bull Test, he has surfaced as one of the true multi-trait leaders. At thirteen years of age, he posts an incredibly strong EPD combination along with longevity. Sire of the Number 1 steer in the 2019 MCA Profitability Challenge.
- Semen \$25

- Owned with Oak Ridge Angus, Calistoga, CA
- Competing against some of the breed's top proven AI sires, ATLAS sired the top-selling sire group of bulls with both his two calf crops at Oak Ridge Angus. Lost at an early age, a very limited amount of semen is being used here via ET and IVF.

- Owned with Swanson Angus Farm, Durant, IA and Brinkley Angus, Milan, MO
- BLACK PEARL has been especially popular in Australia and New Zealand for his fleshing ability, strength of forerib and over-all structure. Of all high-accuracy sires for growth and carcass, he is the Number 8 \$Combination sire in the breed.
- Semen \$20

- Owned with Amoneit Farms, Byrdstown, TN
- Black Diamond was one of the highest-performing bulls in our 2013 offering, gaining 4.60 lbs/day to generate adj. YW of 1,546 lbs. Strong for growth, foot shape, RADG and muscle.
- Semen \$20

- Owned with Slovek Angus, Phillip, SD; Malek Angus Ranch, Highwood, MT; Pitts Angus, Hermitage, MO; and Sioux Pass Angus, Lodge Grass, MT
- As the highest-valuation bull in the history of SydGen at \$170,000, FATE has proven to be one of the very best multi-trait bulls available. Of all high-accuracy sires for growth and carcass, he is the Number 4 \$C sire in the breed.
- Semen \$24

HPCA EARLY BIRD 65

- Owned with Amonett Farms, Byrdstown, TN
- Selling for \$15,000 in the 2015 sale and left on the wintering program, this calf improved on his 808 pound Weaning Weight by gaining 5.16 lbs./day to post a 1,634 pound Yearling Weight, both SydGen records for a spring-born bull.
- Semen \$40

- Owned with JarLicker Farms, Cameron, MO, Boot Hill Farm, Hamilton, MO, Blair Carney Angus, Adair, IA and Borkowski Angus, Elliott, IA
- A maternal brother to Black Pearl, Big Medicine, Jack Black and Patriarch, JEREMIAH was selected as the third high-selling bull in the 2016 SydGen Spring Influence sale. We think he is one of the most powerful Prophet sons available.
- Semen \$20

- Owned with Mogck & Sons, Olivet, SD
- ENHANCE's EPD profile is as good as it gets for multi-trait excellence and accuracy, with over 14,000 progeny on record. He defines the \$C index, and is still the Number 1 \$C sire at his accuracy levels. Many of the highest-selling cattle in the breed are his sons and daughters.
- Semen \$25

- Owned with Barry Reynolds, Licking, MO
- Top-selling bull in our 2016 offering with a great EPD profile for calving-ease and balance. He has several progeny selling today.
- Semen \$30

- Owned with Amonett Farms, Byrdstown, TN
- Top 1% \$F, \$B and top 2% \$C in one of the strongest sons of FATE that has been identified. You will see some top progeny offered today.
- Semen \$50

- Owned with Hinkle's Prime Cut Angus, Nevada, MO
- Exceptional combination of CED, Marbling and REA, in a package complete with eye appeal, sound structure and docility. This good sire has really gained momentum as breeders have noticed his progeny.
- Semen \$20

- Slated to be a feature in our 2019 event, he posted perhaps the strongest across-the-board ratios of any fall yearling. He would not pass semen evaluation, but we used him lightly and successfully in the fall. He settled every one we saw serviced, so we used him in the spring on a group of heifers, and he did fine.

		2-107	2-113	1-117	1-85	1-109	1-93	1-100								

- This female dominated her calf crop as the Number 1 adj. WW female of the entire fall SydGen heifer calf crop, and continued on to post the Number 1 adj. YW.
- Dam is one of our very best Cool daughters, and grandam is an own daughter of the "Whiskey" bull.
- Grandam, 2749, sold to Ray Family Angus, Glasgow, KY after compiling a top production record here, with 4 BWR-99, 4 WWR-103, 4 YWR-100, 3 IMF-103 and 3 REA-104.
- Third dam is well-known as the dam of SydGen Trust and SydGen Dealer 9883, two strong maternal sires that have proven their value in the real world.
- 4413 generated over \$300,000 in progeny sales here, including a flush sister to 2749 that brought \$20,000 to Jar Licker Farms, Cameron, MO.
- This is our second major offering of Gavel progeny, and we offer this female as a powerful example of his soundness and performance, coupled with the fertility of the Cool influence.
- Selling half interest with the option to double the bid price and own 100%.
- If the half interest choice is taken, the buyer has the choice to take 100% possession and keep the natural calves, or to leave her here at no charge, and we retain 100% of the natural calves. The partner with no possession will only be responsible for paying half of the out-of-pocket flush costs, and will receive half of her embryo production.

		3-90	2-97	1-97	1-197	1-99	1-115	1-124								

- We are proud to offer the Number 1 \$Combination daughter of Connealy Cool 39L in the breed.
- Her nine-year-old sire has captured the attention of many top breeders, for his dominance in Heifer Pregnancy EPD and all-around ability to sire functional, maternal females with longevity.
- Several top mature daughters of Cool will be offered today in the Fall Pairs division.
- She lit up the ultrasound machine last spring with a 12.05% IMF, adjusting to 11.94%, and rationing 197 in a large contemporary group, while posting an adj. REA measurement of 11.3 sq. inches.
- Dam is a slick haired, sweet-uddered Rock Star daughter from the Basin Lucy family.
- Grandam served as a donor here, and sold in the 2016 sale for \$13,000 to Kestler/Voss Land & Cattle, Washington, MO.
- Great-grandam was a flush sister to Basin Payweight 006S and 107S, selling as a feature of our 2012 event to Maifield, Inc., Kesley, IA.
- Bred March 30, 2022 to Baldridge Versatile G289. Exposed from April 18 to June 8, 2022 to SydGen Tennessee 1197. Preg check indicates conception about April 24 with a heifer calf.

3-98	3-102	2-106	3-108	3-105	3-93	3-94	

- Selected as the Number 1 \$C female in the Brinkley Angus Ranch March, 2022 event, marking the first time they have released any number of top end females from their herd that annually posts one of the strongest bull sales in Missouri.
- This female offers some outcross blood to many programs, ours included, which is why we are retaining an interest in her.
- Sire is a maternal brother to such well-known names as Connealy Confidence Plus, Square B True North and Square B Atlantis.
- A touch of CC&7 in the third generation puts her in good company with many of the top-valued bulls and females in the breed.
- Note the dam's production record.
- Photo is from last spring, and she has calved now with a beautiful udder and doing a nice job raising her calf.
- Selling one-half interest only, in the cow and her natural calf at-side. Possession will stay with SydGen at least through May, 2023. Her bull calf will be half-interest as well, and he will be retained and marketed in our 2023 production sale, with the buyer receiving one half of those proceeds (with a 15% sale expense charge taken out). After the calf is weaned in May, buyer has the option of taking possession, and owning 100% of the future natural calves, or leaving her here, with SydGen owning 100% of the natural calves. All embryos will be split 50-50, as well as all embryo transfer out-of-pocket expenses. Owner of the possession interest is responsible for any boarding charges, if she is sent to an ET center.
- Has a bull calf (Lot 3A), calved August 19, 2022 by BAR Dynamic. BW 59 lbs.

- Big spread and incredible Marbling genetics culminating in a top 1% \$C ranking, from the very top of our replacement heifers.
- Scanned adj. %IMF of 11.86% to ratio 167 while recording adj. REA of 12.4 sq. in. to ratio 111.
- Maternal sister was the top-selling female in SydGen history, at \$150,000 in our 2019 sale to Spruce Mountain Ranch, Larkspur, CO and Crazy K Ranch, Michie, TN, and a flush on that sister sells as Lot 5.
- Flush brothers in last year's event brought \$9,000 to Amonett Farms, Byrdstown, TN; \$8,000 to Buck Run Cattle Farm, Union, KY and \$5,750 to Cunningham Farms, Molino, FL.
- Maternal sister by FATE sells as Lot 342.
- Donor dam was the result of a pregnancy selected through the 2015 Missouri Angus Futurity, and her dam was the \$24,000 second top cow in the 2015 Hinkle's Prime Cut Angus sale at Nevada, MO.
- Bred April 4, 2022 to URF Alpha G138. Exposed April 18 to June 8, 2022 to SydGen Tennessee 1197. Preg check indicates conception on April 4 with a heifer calf.

- Offering a conventional flush on this top young female that is the only proven dam in the breed with her combination of \$Combination and Claw EPD. She also ranks fourth of all proven dams for Marbling EPD and is currently Number 16 for the \$C index.
- Recently re-purchased from Spruce Mountain Ranch and Crazy K Ranch.
- Leachman Cattle of Colorado, Wellington, CO purchased a maternal brother, SydGen Bonus 8084, in the 2018 SydGen sale for \$15,000, with Rolling 7 Ranch Company, Broken Bow, NE selecting his two flush brothers at \$9,000 and \$5,000 in that same sale.
- Two maternal brothers by Square B True North sell as Lot 107.
- Maternal sister sells as Lot 4.
- We will guarantee 6 embryos, and buyer receives up to 10 embryos at no additional cost. If 11 or more embryos are produced, buyer had the option of purchasing them at a pro-rated price. Buyer is responsible for shipping semen to us, if an out of herd sire is chosen. Buyer also pays all out-of-pocket costs for the flush.

Our long-term emphasis for end product merit has been verified repeatedly with our steer data at USPB and on a smaller scale, in contests at the National Junior Angus Show and Missouri State Fair. The 2021 Reserve Grand Champion NJAS Carcass Steer was a son of SydGen Exceed 3223, making him a paternal brother to the \$C industry standard and leader in registrations, SydGen Enhance. He was one of only three Prime carcasses in the contest that year. Another EXCEED steer placed 3rd in the 2017 NJAS contest, recording the highest marbling score in that event. At the 2022 NJAS with 42 top steers competing, the Grand Champion Steer was out of an ENHANCE daughter and posted an Abundant 90 marbling score, earning a carcass premium of \$329.55. The 6th and 8th place steers were sons of Northside and Exceed, and they were both Prime YG2. In the 2022 MSF Carcass Contest with 54 entries, the Reserve Grand Champion was sired by EXCEED, also a Prime YG2. The 6th and 8th place steers were sired by Early Bird and Ozark, and were both Prime YG3.

- This intriguing female offers an EPD profile near the top of the breed for multiple traits, including top 1% rankings for 8 different breeding values.
- Grandam, SydGen Entense 3043, was a long-time favorite here, producing the \$80,000 SydGen Supreme who was top selling bull in the 2017 SydGen Influence Sale when purchased by Brandt Angus Farm, Corning, IA; High Point Genetics, Osceola, IA and ST Genetics, Navasota, TX.
- 3043 also produced sons in our 2018 sale to Greg Young, Mendon, MO for \$22,000; to Hunt Farms, Braymer, MO at \$10,000; to Bob Vandiver Cattle Company, Richmond, MO at \$5,800; and to Cunningham Farms, Molino, FL for \$5,750.
- Mark & Sandra Kloeppel, Dixon, MO purchased another son of 3043 in the 2020 SydGen sale for \$5,000, and yet another son sold in the 2021 sale to Josh and Carson Humphreys, Fulton, MO.
- Both Lots 6 and 7 stem from the Everelda Entense cow family and the 1120 cow featured in our 2016 event.

- These two featured heifers from the first full calf crop by Volunteer both stem from the 1120 cow that was featured on the cover of our 2016 salebook, and selected by Express Ranches as the top-selling cow of that event at \$27,500.
- A son of 1120 was one of the featured bull calves in our 2015 offering. SydGen Omaha 5026 brought \$14,000 to Amonett Farms, Byrdstown, TN, and went on to post the highest adj. YW of any spring bull ever at SydGen, at 1,634 lbs. to ratio 116.
- Another son of 1120 was a favorite at the Spring SydGen Influence Sale, and was second top-selling bull at \$12,000 to Mike Jewett, Windsor, MO.
- Other sons of 1120 sold for \$5,000 each to Raymond Jackson, Hartsville, MO and DJ Schroeder, Westphalia, MO; and \$6,000 to Keller Farms, Shelbyville, MO.
- Another top prospect with multiple traits ranking in the top percentiles of the breed, stacked with some of the top multi-trait sires identified in the Angus breed.
- Grandam served as a donor here, and sold to Blair Carney Angus, Adair, IA in our 2021 offering.

- A top multi-trait cow prospect with exceptional Marbling genetics.
- She scanned adj. %IMF of 12.07% to ratio 200 in her contemporary group.
- Dam was selected as the top-selling heifer calf in the October, 2017 Circle A Ranch dispersion.
- Maternal sister is working for White Oak Farm, Elsberry, MO and a maternal brother sold to Bruce Bradley, Marshfield, MO.
- Another maternal sister is retained.
- Bred April 10, 2022 to URF Alpha G138. Exposed from April 27 to June 24, 2022 to SydGen Target 9581. Preg check indicates conception on April 10 with a heifer calf.

- Nice pair of ET Enhance daughters with strong multi-trait superiority.
- Their now-deceased donor dam was selected as the top-selling bred heifer in the 2019 Cardinal Hill Farm Production Sale, Glasgow, KY, where she was selected for her phenotype and multi-trait strength. Note she has Mandate, Trust, and 2 shots of CC&7 in her pedigree.
- Dam had twins in 2021 which do not show on her progeny record. The twin she raised ratioed 103 at weaning and 107 at yearling, and is retained, along with two flush sisters to these two heifers.
- Grandam also served as a donor at Cardinal Hill.
- 9A posted the Number 1 adj. weaning weight of all the sale heifer calves, and 9B posts the Number 1 SC Value of all the sale heifer calves.

LOT 12 - SYDGEN MARY BLACKBIRD 6821

SYDGEN MARY BLACKBIRD 6802
FLUSH SISTER TO LOT 12

The Deal

On several of the open donors, we offer the option of leaving the cows here, and we will attempt to flush them here, on farm, on December 12 with Trans Ova Genetics. We will pay all of the flush expense and care for the cow, for 50% of the embryo production. We will have a list on sale day of which cows we want to try. Your share of the embryos will be frozen, and available to you at any time after the flush. Even if you plan to flush the cow later on your own, this might be a cheap, quick way to get a few embryos made before you move her.

- Powerful, proven 6th generation donor that produced a \$17,000 Enhance son to Tony Peckenpaugh, Carthage, SD and another at \$7,000 to Bryan Switzer, Bucklin, MO.
- Daughters are retained by Exceed and Enhance, as well as embryos by De-Su Volunteer.
- Flush sister in last year's sale brought \$9,000 to Smith Valley Farm, Salem, MO.
- Dam was a feature of our 2016 sale at \$17,000, plus \$9,200 for four frozen embryos, to Silverado Farms, West Des Moines, IA. She compiled over \$120,000 in progeny sales here, after being selected as the "pick" of the Tehama Angus Ranch two year olds.
- The Mary Blackbird family has long been one of the top cow families at Tehama, and include the \$210,000 BCA Mary Blackbird 2742.
- She has been flushed two times, producing 5 transferable embryos. She has been aspirated one time, producing 6 transferable embryos.
- Owned with Greiner Angus, Kalona, IA, she sells in her entirety.
- Has a heifer calf (Lot 12A), calved October 9, 2022 by SydGen KCF Gavel 8361. BW 55 lbs.

- A special feature of the spring bull calf division are these flush brothers out of the top selling open cow in the 2021 SydGen sale that sold to Brinkley Angus Ranch, Milan, MO and Lazy H Ranch, Hays, KS for \$17,000.
- They are sired by the popular high \$M sire, BJ Surpass.
- These calves are maternal brothers to Gavel, the record selling bull in the history of SydGen when one-third interest sold in the 2019 production sale for \$80,000 to Mogck & Sons, Olivet, SD.
- Maternal brothers have sold to Brian Eveland, Hawk Point, MO for \$9,000, and to Rolling 7 Ranch Company, Broken Bow, NE for \$6,500 and \$3,750.
- In the 2021 SydGen Production Sale, maternal brothers were selected by Donald Weidner, Tina, MO at \$8,000; by Harold Fuller, Osceola, IA, and by Robert Seamster, Queen City, MO.
- Selling half interest and full possession in Lot 19B.

- This exciting son of Volunteer combines a phenomenal carcass merit and growth package to post some of the highest index values in the entire sale offering.
- Dam was a past SydGen donor who sold in the 2021 SydGen sale to EIO Farms Inc, Speedwell, TN; and Harold Fuller, Osceola, IA purchased her son in that sale for \$3,750.
- The dam is a full sister to the Trust bull calf selling as Lot 54 in this event.
- A maternal brother sold in the 2020 sale to Dan Ewingman, Brookfield, MO, with another maternal brother selling to Dale Lawler, Clinton, MO.
- A maternal sister to this calf produced an \$8,000 bull in the 2021 SydGen Production Sale going to Larry & Gayla Anderson, Buffalo, MO.
- Strong maternal heritage, the grandam was a Pathfinder Dam with an average weaning ratio of 108 on 5 natural calves selling in the 2013 sale to Maifeld Inc, Kelsey, IA for \$9,000, and her son sold in the 2015 sale to Charles Wimmer, Dakota, IL for \$20,000.
- Selling half interest and full possession.

- This first full calf crop by Volunteer featured today will be worth the trip. Their structure, eye appeal and length coupled with excellent calving-ease make them easy to use.
- A maternal brother sold in the 2021 SydGen Production Sale to Mershon Cattle LLC, Buckner, MO for \$4,000.
- Dam was purchased as a bred heifer in the 2019 Mogck & Sons Enhanced Female Sale, and the production oriented female is backed by four generations of proven American Angus Association Pathfinder Dams.
- Selling half interest and full possession.

- Add predictable performance to your calf crop with one of the highest WW and YW EPD bulls in the entire offering.
- Dam, pictured above as a heifer, came to us through a past Ankony Angus Production Sale, Clarksdale, GA and she has developed into an impressive young cow in production.
- A maternal brother sired by FATE sold in the 2021 SydGen sale going to Ted & Jessica Hamill, California, MO.

Bull Calf Wintering Program

We have sold many of our bulls as calves in past years, and are doing so again this year. Though they are not old enough to semen test by sale day, they are Guaranteed Breeders. Many cattle-men prefer buying calves and raising them at home to get them acclimated and to have the bull devel-oped and ready to go out at breeding season. For those of you who do not have the facilities to raise the bulls, or just prefer not to do it, we offer an option for people buying bulls in this sale. For a flat fee of \$300.00, you may leave the bull here and we will raise him in our normal manner, and you may pick him up any time during the month of April, 2020. The bulls wintered at Syden-stricker Genetics will have yearling weights taken, be ultrasounded for body composition, and have a breeding soundness evaluation. Buyer does own the bull as of sale day, and assumes all risk of injury or death. We would suggest buyers purchase insurance on these bull calves. Bulls will be raised on a ration of grass hay, corn silage, oats and corn. They will be well grown out and hard, not over-conditioned.

- Excellent weaning performance in this heifer bull that offers outcross genetics for long-time SydGen customers.
- Sire topped the Car Don dispersion in Indiana to Krebs Ranch, Gordon, NE, and is also the sire of the heifer calf featured as Lot 390.
- The dam was our selection from the bred heifers in the 2020 Frank-Hazelrigg Cattle Company Production Sale, Jefferson City, MO, and she has developed into a tremendous producing female.
- A maternal sister sells in the bred heifer division as Lot 363.
- Selling half interest and full possession.

- Sire is the maternal brother to Confidence Plus and True North that is in service at Brinkley Angus Ranch and on the ORIGIN roster.
- A high growth prospect excelling in WW and YW EPDs and posting upper 1% ranking for both SM and SC indexes.
- Maternal brother by Blueprint sold in the 2022 SydGen Influence Sale for \$6,100 going to Mike Jewett, Windsor, MO.
- Dan Byler, Whiteville, TN purchased a full brother to the dam in the 2019 production sale.
- Selling half interest and full possession.

- A pair of flush brothers with elite carcass improving genetics with upper percentile ranks for RE EPDs and \$B and \$C index values.
- Dam is an impressive daughter of FATE from our donor program that sold in the 2021 SydGen Production Sale to Smith Valley Angus, Salem, MO for \$9,000. Her flush sister is featured today as Lot 12, and she just re-sold for \$20,500, with a heifer pregnancy bringing \$15,000.
- A full sister created a stir in the 2019 production sale when she sold for \$29,000 to FB Genetics, Dumas, TX. She produced a \$51,000 daughter in her first round of embryo transfer, and is now a featured donor at Circle G Ranches, Adel, GA.
- A maternal sister sold in our 2021 sale for \$15,000 to Pollard Farms, Waukomis, OK, and maternal brothers in that event sold to Kris Graupman, Palmyra, MO for \$15,000, and to Bellis Family Farms, Orrick, MO at \$4,250.
- Selling half interest and full possession in Lots 44A & B.

- Dam was a first calf heifer that was one of the very top performing individuals in her contemporary group, posting a weaning and yearling weight ratio of 114.
- SydGen Royal Queen 4891 was an AAA recognized Pathfinder Dam with five natural calves weaning ratio of 109, and four yearlings ratio 110, and she sold in our 2020 production sale for \$5,900 to Turner Farms, Belgrade, MO.
- McDonald Cattle Company, Sullivan, MO selected a maternal brother to the dam sired by Cool through the 2017 SydGen Production Sale for \$8,000.
- A maternal sister to the dam produced the fall bull selling as Lot 152, and their other maternal sister has a son of Early Bird selling as Lot 166.
- Selling half interest and full possession.

General Information On The Fall Yearling Bulls

We are certain most buyers of these fall yearlings (Lots 94-189) will want to take them home after the sale. They are semen-checked, vaccinated, and ready to go. If you would like to leave him here on our wintering program until April, the cost will be \$400.00. This will include a re-check on his semen test.

There are four weaning contemporary groups in this set of bulls. The bulls lotted as 128-189 were raised at our Garcia and Dodson locations, fed at WFL, include both natural and ET calves, and gained 3.59 lbs./day. Lots 89-127 were natural and ET calves out of two year olds, and natural and ET calves from our HH location. Those were fed in one feeding group at Dodson, and gained 3.55 lbs./day. Adj. YW average was 1,303 lbs. Average frame score on all fall bulls in the sale was 5.7 and average adj. SC was 36.8cm. Average adj. IMF was 3.38%, REA of 14.68, rib fat of .33 and rump fat of .34.

Calves were brought in from all locations and weaned, with weaning weights taken on May 26, about 7 days after actual weaning. Bulls were put on a complete, self-fed ration in two 20-acre fescue pastures until yearling weights, scrotal measurements, and ultrasound scans were taken on September 13 and 16, for total days on feed of 110 or 113 days. There was no "warm-up" (or shrink out) period between the date weaning weights were taken and their beginning test weight. The feed we now use on the bulls, Purina Bull Developer, does have limiters in it, and we have been pleased with the condition and the soundness of the bulls coming off test. We included substantially more fiber in the ration this year than we have in previous years. Bulls were all vaccinated with Bovi-Shield Gold 5 VL5 HB and poured with Cydectin when they came off test, and gradually converted to a silage and hay based ration, which they stay on until sale day. We wean late, and have a short feeding period in order to better utilize spring grass, and to help keep the bulls from being over-conditioned.

- The largest RE EPD among the fall bulls selling, and scanned the largest REA measurement in his contemporary group.
- The dam of this Quantum son was purchased as an open heifer through the 2019 EZ Angus Ranch Production Sale, and has developed into an impressive young female in production.
- Dam was a feature of the 2020 SydGen Production Sale when one-half interest sold for \$28,000 to Brian Eveland, Hawk Point, MO, then a flush on her sold in the 2022 MO Angus Futurity for \$5,750.
- Dan Ewigman, Brookfield, MO purchased a maternal brother sired by Enhance in the 2021 SydGen sale for \$4,500; a full brother sells as Lot 105, and a full sister as Lot 194.
- A flush sister to this bull sells as Lot 230.
- Selling half interest and full possession.

Record							

- This Wake Up Call son is one of the very top MARB EPD bulls in the sale offering, and he posted the highest IMF scan in his contemporary group of ET calves.
- The dam sold one-half interest for \$50,000 in the 2018 SydGen Production sale to Express Ranches, Yukon, OK.
- A maternal brother, SydGen Nazareth GA 0813, sold in the 2021 SydGen sale for \$23,000 to Grimmus Cattle Company, Hanford, CA.
- Selling in the 2020 production sale, maternal brothers were selected by Amontett Farms, Monroe, TN for \$7,000; by RAGS Angus, Hopkinsville, KY at \$4,750; by J S Farms & Stokes Farms, McComb, MS for \$5,000; and by McCloud Farms, Jayess, MS at \$3,750.
- Maternal brothers are featured spring calves selling as Lot 18, and a maternal sister produced a Volunteer son featured as Lot 142.

- These flush brothers by Wake Up Call have Claw and Angle EPDs at the very top of the percentile ranking of non-parent bulls in the breed.
- Greiner Angus, Kalona, IA purchased the dam in the 2020 SydGen Production Sale as a special feature when one-half interest sold for \$50,000.
- Dam is a unique female, combining excellent Claw and Angle EPDs with exceptional phenotype, Docility and \$Combination Values.
- A full brother sells in the spring bull calf division as Lot 80 and a flush brother sells as Lot 160 in the fall bull group.
- Maternal sisters sired by Enhance are featured fall open heifers that sell as Lot 10A & B.

- His dam posted 108 ratio at weaning, 109 at yearling, and 115 on IMF.
 - 44 Farms, Cameron, TX purchased a full sister to the dam as the high-selling full interest female in our 2018 sale at \$85,000, with her full sister selling in the 2020 sale for \$40,000 to Pollard Farms, Waukomis, OK.
 - In the 2017 production sale, a maternal sister to the dam by Exceed was the top-selling full interest female at \$50,000 going to Crazy K Ranch, Michie, TN.
 - Bryan Switzer, Bucklin, MO bought a full brother to the dam in the 2020 sale at \$8,000, and then in 2021 purchased their maternal brother for \$6,000.
 - Other maternal brothers to the dam sold to Glenn Ewigman, Brookfield, MO for \$7,000; Kirk Egbert Ranches, Terreton, ID for \$5,500; Pollitt Farms, Astoria, IL for \$5,000; Berg & Sons, Saint Anthony, IN for \$4,500; and Stephen Magruder, Fordland, MO for \$4,500.
 - Full brothers to the dam were purchased in 2019 by Mayes Cattle, Lathrop, MO at \$5,000 and by Sandy Spur Cattle Company, Hays, KS for \$5,250.
 - Leaders Angus, Minden, IA purchased the grandam, Black Gold Fanny 4079, in the 2021 SydGen Production Sale for \$8,500.

Cowboy Logic #7

Every calf born at Sydenstricker Genetics is weighed with a scale. That is the weight reported on AHIR, and in the performance information listed in this catalog.

Many breeders, however, use an estimated birth weight determined by measuring the calf's heart girth or hoof circumference, and then use a chart to convert that measurement to pounds. We taped the heart girth of every calf born on the farm in the spring of 1999, and compared it to the calf's actual weight. We found the tape to be fairly accurate up to about 83 pounds. After that, the calves tended to weigh much more than their heart girth measurement would indicate.

For example, in 1999, our highest birth weights using the tape were only 92 pounds, and there were only two that were that high. Those two calves actually weighed 104 and 110 pounds. In the entire calf crop, there were actually 65 calves with birth weights of 92 pounds or more. Those who promote taped birthweights claim it will take care of any birthweight problems in the breed!

So what's our point? There's actually four points we'd like to make. Although customers who have bought bulls here for many years appreciate our use of true scale weights, new customers are sometimes shocked by our birth weights. We know in some instances that is because they are used to looking at estimated (taped) birth weights rather than true scale weights.

We are not totally opposed to the use of estimated (taped) birth weights. It's better than nothing, and we appreciate how much easier it is to measure the heart girth, rather than wrestling the calf into some kind of sling, and hoisting him up while trying to read the scale as he's bouncing around trying to get away, all the while you're also trying to watch for the mother pawing and bellowing behind you! Besides, the body circumference might have an influence on calving ease.

All we ask is that you compare apples to apples. If you're comparing these bulls to bulls from a herd that uses estimated tape weights, you need to know that the same calf will "weigh" differently in each herd. And, if you're buying bulls from a herd that guesses weights, or weighs them at the kitchen table, expect even more surprises!

Also remember that estimated (taped) birth weights will be bunched together tighter, since the higher weights will be closer to the average. This will affect EPDs in that they will not spread out as much as they really should.

In actuality, we recommend you not use a scale weight or an estimated weight very much in your selection decisions. The BW EPD is a much better indicator of what's in the calf genetically, and in natural calves; his own birth weight has been factored into his BW EPD. Studies have shown EPDs to be as much as nine times more accurate than ratios or raw weights as a selection tool.

While we're on the subject...

While we are firm believers in breeding heifers to low BW EPD bulls, it seems to us our breed has gotten a bit carried away with the concept, when breeding mature cows. Our experience is that a big, stout calf at birth is usually the big, stout calf at weaning, as long as there is no problem at birth. Remember that a +6 BW EPD Angus bull is equivalent to a 4.1 BW EPD Simmental or a -.4 BW EPD Charolais, according to the most recent Across-Breed EPDs of the U.S. Meat Animal Research Center. Also, an old University of Missouri study showed that cows will naturally try to produce a calf that weighs about 7% of her own body weight. 7% of a 1000-pound cow is 70 pounds, but 7% of a 1500-pound cow is 105 pounds.

Record							

- Twin born Gavel sons with one raised as a grafted calf, so their performance data is not reflected in the EPD calculations. B is the third highest adj. YW of all the fall bulls.
- The dam was \$33,000 fourth high-selling open heifer in the 2019 SydGen Production Sale, selected by Greiner Angus, Kalona, IA to enter the joint ET program we manage at SydGen.
- Maternal brothers sold in the 2021 sale to Dan Ewigman, Brookfield, MO for \$4,500, and to Leaders Angus, Minden, IA.
- Landon Petree, Bunceton, MO purchased the maternal grandam in our 2021 sale, and she was a Pathfinder Dam that had four natural calves ratio 107 at weaning.
- A maternal brother to the dam sold in the 2019 sale to Alford Cattle Company, Caldwell, TX, with their maternal sisters selling in past sales to Larson Angus Cattle Company, Woodburn, IA, and to Crow Ridge Angus, Monroe, TN.
- Selling half interest and full possession in Lots 130A & B.

Docility

Several SydGen herd sires rank high on the Docility EPDs of the American Angus Association. Connealy Cool 39L, SydGen CC&7, SydGen Liberty GA 8627, SAF Connection and SydGen Black Ice 7029 all rank in the elite top 1% of proven sires for Docility EPD. 28 more SydGen sires rank in the top 10% for Docility.

Data from the Tri-County Futurity showed a \$40 per head advantage for docile cattle versus those who scored nervous to very aggressive.

- Growth and feed efficiency rolled into one package, this Gavel son boasts one of the very top YW and RADG EPDs, driving a top 1% \$F ranking.
- Number 2 of all the fall bulls for ADG.
- The maternal granddam, SydGen Lady 1548, was a donor in our ET program, and sold to Smith Angus Farm, Snow Camp, NC in the 2017 SydGen sale for \$6,500.
- Cardinal Hill Farms LLC, Glasgow, KY selected a flush sister to the dam in the 2021 production sale for \$10,500, with two other flush sisters selling in the 2020 sale to Mc Laren CC Beef, Pacific, MO at \$4,500, and to Sandy Spur Cattle Company, Hays, KS at \$4,000.
- A maternal brother to the dam sold to C Bar Land & Cattle, Percy, IL for \$6,000.
- A maternal sister to the dam produced a Rock Star son that sold in the 2018 sale for \$11,500 to JMJ Ranch, Hollis, OK.
- Selling half interest and full possession.
- Ron Fitterling, Warrensburg, MO purchased a maternal sister as an open heifer in the 2021 SydGen sale.
- A maternal brother to the dam sold in the 2015 production sale to Paul Hildebrand, Plainville, IL for \$5,500, and their maternal sister sold to Henke Farms, Salisbury, MO for \$3,800 in a past sale.
- An eighth generation Missouri Blackbird, long known for their slick hair coats, he ranks in the top 15% on the new HS EPD.
- Scanned the Number 2 adj. REA in his contemporary group at 17.1 to ratio 115.
- Selling half interest and full possession.

CED vs. BW

Which number should one consider strongest when purchasing a bull to use on virgin heifers?

This question comes up often in discussions. If you talk to a geneticist, CED is always the answer, because calving ease is what you are looking for, and that is the actual trait reflected by a CED EPD. Birth Weight (BW) is an indicator trait, but not the actual trait of economic importance.

However, one thing we think about pretty often is the fact that a lot more data affects the BW EPD than the CED EPD. First of all, CED EPD is based only on pulls and unassisted births out of first calf heifers. No data from second-calvers and older is counted at all. Secondly, if all the calves are born unassisted, it does not affect the CED of any of the sires, other than the influence of the birthweights on the BW EPD, which would have some correlated effect on CED EPD. That would mean most of the data from small herds would count very little, since the odds of pulling a calf on a small number of heifers is very small. Also, no pulls on ET calves are counted. In the big scheme of things, the number of pulls turned in is a pretty small number, and it seems to us that it could skew the CED EPD pretty strongly in either direction in a good luck/bad luck scenario.

Birth weights, on the other hand, are generally turned in, and processed, on a very high percentage of calves turned in on AHIR. Sire summary supplemental information shows over 5 times as many birthweights reported as there are calving ease scores.

- If you market cattle by the pound, pay attention to these Gavel sons—look at the WW, YW and CW EPDs on this bull, and his individual performance follows the prediction.
- Posted the Number 1 adj. WW and the fourth highest adj. YW in the entire fall yearling bull division.
- Third dam is a maternal sister to SydGen CC&7.
- A maternal sister by Northside sold in the 2021 sale to Adam Kautsch, Russellville, MO.
- Triple V Farms, Perryville, MO purchased a maternal sister to the dam sired by Early Bird in the 2021 sale for \$3,000, and their maternal sister sold in the 2020 sale to White Oak Farm, Elsberry, MO.
- Selling half interest and full possession.

- The Gavel X FATE cross has created some exciting genetic packages, and this sire prospect is no exception.
- The dam was produced by a Discovery daughter, 44 Rita 4794, we obtained through the 2016 Crazy K Ranch Spring Production Sale, and she was in the SydGen ET program.
- A maternal brother to the dam sold in our 2019 sale to Rick Aufdenburg, Jackson, MO for \$3,500 and her flush brother went to Wildwood Farms, Carrollton, MS; then in the 2017 sale their maternal brother sold to High Valley Ranch, Santa Fe, MN for \$5,000.
- A flush sister to the dam sold for \$7,000 in 2019 to Stepaside Farm, Sanger, CA, with 2 S Angus, Seneca, MO buying a maternal sister to the dam in 2018.

Tips on Using Yearling Bulls

Yearling bulls have many advantages: fresher genetics, better selection, etc. Studies have shown bulls used as yearlings sire more calves in their lifetime than bulls held until they are two. Also, buyers who manage them well can often re-sell them as three or four-year-olds and recover much of their purchase price.

A few tips from our experience:

- If your group has too many cows or heifers for one yearling bull (we suggest 10-15), don't put all the bulls out at the start of the season. If you turn them all out at once, they are likely to all lose weight and perhaps all go temporarily sterile at the same time. If you have two bulls, put one in for two weeks, then pull him and turn out the other one. The forced rest and a little feed and fly control will make him stronger. Using the every two week rotation, if one bull is a stronger breeder, he will always be covering what the other bull missed. Furthermore, running multiple bulls in the Midwest often results in broken penises; it's just different out West where the pastures are so much larger.
- A yearling bull should not be out in a Missouri pasture from mid-July through August. Bulls generally shed their first two incisors about 18-20 months of age. That combined with fescue endophyte and heat stress could cause the bull to get so nutritionally stressed that it will take a long time to get him back in shape.

- This Volunteer son writes a tremendous data profile with his growth, carcass, and economic index values, plus he stems from one of the most powerful cows ever produced at SydGen.
- The dam of this bull is a natural calf of the \$50,000 half-interest SydGen Rita 5730 who sold in the 2018 SydGen Production Sale to Express Ranches, Yukon, OK.
- Grimmus Cattle Company, Hanford, CA purchased a maternal brother to the dam in our 2021 sale for \$23,000.
- Dam also had maternal brothers that sold in 2020 to Amonett Farms, Monroe, TN for \$7,000, to JS Farms & Stokes Farms, McComb, MS at \$5,000, to RAGS Angus, Hopkinsville, KY for \$4,750, and to McCloud Farms, Jayess, MS for \$3,750.
- Maternal brothers to the dam sell as Lot 18A & B, and as Lot 120.

- Check out the weaning performance this bull achieved in a large contemporary group of natural calves.
- Dam was purchased as a spring open heifer calf in the 2018 Express Ranches Big Event Sale where we also purchased her dam, OSU Empress 5136.
- Dam is a maternal sister to one of the most popular bulls in the 2019 production sale when Amonett Farms, Byrdstown, TN purchased SydGen Stealth for \$25,500 making him the second top-selling bull of the day.
- Maternal brothers to the dam sired by Wake Up Call sold in the 2020 sale to Kinseys Oak Front, Flemington, WV; to Kenneth Rehagen, Jefferson City, MO; to Pollitt Farm, Astoria, IL; to Jay McCallie, Fulton, MO; and their flush sister sold for \$4,000 to McCloud Farms, Jayess, MS.
- Dam's maternal sister sells in the bred heifer division as Lot 382.

- Low BW calving ease bull.
- Maternal brother was featured in our 2021 sale at \$7,000 to 4 A Angus Farms, Beaufort, MO for \$7,000.
- Turner Farms, Belgrade, MO purchased the maternal grandam in the 2020 SydGen Production Sale for \$5,900. She was a Pathfinder Dam with an average weaning ratio of 109 on five calves.
- A maternal brother to the dam sired by Cool sold in our 2017 sale for \$8,000 to McDonald Cattle Company, Sullivan, MO.
- Dam's maternal sister has an Early Bird son selling as Lot 166, and another maternal sister has a bull selling by Volunteer as Lot 90.

Cowboy Logic #20

One of the toughest decisions we make each year is determining which genetic values and what performance data should be printed in the sale book. Our preference is to print the data most breeders use in their selection decisions, and that is what we believe we have included. We also prefer to condense the data as much as possible, so the information is easier to read and quicker to comprehend when one is making decisions at the pace of an auction sale. This year, you will see we have added the HS (Hair Shedding) EPD to the layout, since several phenotypes from our herd have been submitted over the years. Meanwhile, all registration numbers are provided here, and every EPD and bio-economic index is available to you on the EPD/Pedigree Lookup page at www.angus.org. On sale day, the most current EPDs on all Lots will also be posted.

- Dam's maternal sister sired by Cool sold in the 2018 production sale to Chamness Angus, Anna, IL for \$4,000.
- The dam is selling in the fall calving group as Lot 286.

Replacement Policy

We guarantee that all bulls and females over 7 months of age at time of sale are fertile. If you have an infertility problem with any SydGen animal, you must contact us before culling the animal for any credit to be issued. It is the buyer's responsibility to return the animal to the seller in good breeding condition. SydGen reserves the right, on a case by case basis, to determine whether the animal be returned or sold for salvage.

If a bull does not pass a breeding soundness evaluation or does not settle cows naturally, we will provide you with a satisfactory replacement or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull. If the animal is returned, the credit will be for the full amount paid for the animal. This credit will include the cost of the wintering fee if that service was used, and can

be used at any future SydGen or SydGen Influence Sale toward any animal sold by us.

If a female is determined to be a non-breeder, we will offer you the difference of her purchase price minus her salvage value as a credit in any future SydGen Sale. Or, we will credit you with the full purchase price if she is returned. If a female sold as bred turns out to be open, we will refund 30% of the amount paid. She then would still qualify for the remainder of the credit if she does not breed back. Heifers that are flushed prior to having their first calf carry no breeding guarantee. Guarantee is null and void if the animal dies. This guarantee is in addition to the Sale Terms and Conditions of the American Angus Association, which also apply

Cowboy Logic #456

We are often asked how we pick the sale cattle. Bulls are pretty much selected by birth date. All fall yearling bulls that are saleable are in the sale. When we start calving in January, we put January bull calves into one pasture or two, and when that is full, with 100+ head or so, those are the bull calves for the sale. These calves are culled at weaning for performance, scrotal size and structure. Later calves are used for the SydGen Influence Bull Sale in the spring, replacement bulls, or private treaty sales. Cows are primarily selected from the six and seven year old cows, with a "mandatory retirement age" of seven, except in certain cases when one was held an extra year so we could keep her heifer calf to replace her. We are now trying to sell more cows as two to five-year-olds. Our fall heifers are basically split down the middle in May after weaning, with half going in the sale and half retained. Flush sister and sire groups are split as well, to make the sale offering and the keeper heifer group very similar. Spring heifer calves are pretty much done the same way, although only a third of our heifer calves are sold as heifer calves to allow us to have bred heifers in the next sale.

Cowboy Logic #90

Many of us have a predisposed notion that we want calving ease/ low BW herd sires. But, in the Angus breed, do we really have that much problem with big calves? It seems like most of the problems at birth are more linked to abnormal presentations than actual calves that are too big for the cow or even heifer. And, it seemed like maybe those smaller calves just were not as thrifty. We decided to see if we could dig into the data, and see what survivability to weaning really looked like. After all, a small calf at birth doesn't really help the bottom line if he dies prior to weaning anyway!

We divided up four years of spring calf crops into three groups: (light) 69 lbs. or less; (medium) 70-89 lbs.; and (heavy) 90 lbs. and up. We edited out any abortions and all twins. In a nutshell, the death loss at birth through weaning was twice as high on the light calves as it was on the medium calves. The death loss on the heavy calves was the least of the three groups, and it was the least in every one of the four years. We did not differentiate according to cause of death, or whether it was right at birth or later on pre-weaning.

We've all heard someone say the growth rate of a dead calf is distressingly poor, and took that to mean we needed lighter calves at birth so we would get more of them born alive. Every operation is different, but it certainly appears to us that bigger calves at birth are more likely to still be around at weaning. We would never advocate breeding heifers to anything but a true heifer bull, but our cowherds might be much better served by sires that give their calves more of a head start.

A study by the University of Illinois on Sim-Angus cattle reported the same conclusions.

- This 8077 son puts together an impressive data resume with a top 1% RADG EPD, and index values in the top tiers for \$F, \$B, and \$C.
- A maternal brother sold in the 2019 production sale to Charley Schmidt, Sullivan, MO for \$4,200, and a maternal sister sired by Early Bird sold in the 2021 sale to JM Angus, Poplar Bluff, MO.
- A maternal sister produced the Buffett son that sells as Lot 109 in the fall bull division.
- The dam sired by Stud sells in the fall calving division as Lot 267.

- Already had the highest MARB EPD of all the fall heifers, then scanned a record 14.66% IMF scan, the highest in our history.
- Posts the Number 3 SC Index of all the fall yearling heifers.
- Dam of this female is a Fortress daughter we purchased as an open heifer in the spring 2020 Crazy K Ranch Production Sale.
- VAR Blackcap 9319 has produced over \$2.8M in progeny sales for Vintage Angus Ranch. At their recent sale, 7 daughters of this prolific female who would now be 13 years of age, grossed \$350,000, including the top-selling female of the offering at \$170,000.
- Selling one-half interest only. Buyer has the option of taking possession, and owning 100% of the future natural calves, or leaving her here, with SydGen owning 100% of the natural calves. All embryos will be split 50-50, as well as all embryo transfer out-of-pocket expenses. Owner of the possession interest is responsible for any boarding charges, if she is sent to an ET center.

- A female with exceptional growth EPDs that has one of the highest RADG EPDs in the offering.
- Dam was a top performer in her 74 head contemporary group with an individual weaning ratio of 110 and a yearling ratio of 105.
- The maternal grandam sold in our 2020 sale with her Gavel bull calf at side to Flickerwood Farms LLC, Jackson, MO for \$5,000.
- Note the last cow in the pedigree, B A R Heroine 1250-454, is the dam of Decision and Landslide that were used in the SydGen program.

- Check out the weaning performance on this powerful daughter of Northside.
- The dam is a daughter of the Pathfinder Dam that had four natural calves with an average ultrasound IMF ratio of 117, and she sold in the 2021 sale for \$4,500 to 5 Bar M, Spokane, MO.
- De-Su Angus, New Albin, IA purchased a maternal sister to the dam in the 2018 SydGen Production Sale for \$17,000, with another maternal sister selling to 5 Bar M in the 2020 sale for \$3,300.
- The high index values this female writes are indicative of the excellent multi-trait genetic package in this heifer.

- A good daughter of Ozark with upper percentile ranks for MARB and RE EPDs and generates one of the top \$B indexes in the fall heifer group selling.
- The dam is the Enhance daughter of the famous Fanny donor we chose to carry on this productive cow line in the SydGen ET program.
- 44 Farms, Cameron, TX purchased a full sister to the dam, SydGen Fanny GA 7426, in the 2018 sale for \$85,000, and in the 2020 sale Pollard Farms, Waukomis, OK bought a flush sister to the dam for \$40,000.
- A maternal sister to the dam was the \$50,000 top selling full interest female in the 2017 SydGen sale purchased by Crazy K Ranch, Michie, TN.
- A maternal sister sells as Lot 243, and the dam's flush sister produced the heifer selling as Lot 233 from the Greiner Angus embryo partnership.

- This daughter of Resolve is a maternal sister to the female selling as Lot 242, a granddaughter of the Black Gold Fanny 4079 who following her career as a donor at SydGen sold in the 2021 SydGen Production Sale for \$8,500 to Leaders Angus, Minden, IA. Note that Lots 242 and 243 carry two of the highest HP EPDs selling today.
- Full sisters to the donor dam of this heifer sold to Riverbend Ranch, Idaho Falls, ID in the 2020 SydGen sale for \$7,000, and to Bob Vandiver Cattle Company, Richmond, MO in the 2019 production sale for \$4,750.
- Pollard Farms, Waukomis, OK purchased a maternal sister to the dam in the 2021 SydGen sale at \$7,000, and their maternal sister sired by Northside sold in 2019 To EZ Angus Ranch, Porterville, CA for \$6,000.
- Heifer selling as Lot 233 was produced by a flush sister to the dam of this heifer.

HERD UNITS

This is our 18th year of selling herd unit groups of heifers, and it has been well-accepted. As our herd expands and the size of this sale grows, we think it makes sense to sell these closely related groups of sisters as packages of two to five head at a time.

- A special highlight, this female is the dam of SydGen Hammer, the \$19,000 top-selling spring bull calf selected in the 2021 SydGen Production Sale by Amonett Farms, Byrdstown, TN.
- A son sold in the 2020 production sale to Schulte Farms, Eldon, MO for \$4,250, with another son selling in the 2019 SydGen Influence Sale for \$5,100 to Bernard & Carla Taylor and Logan Taylor, Houston, MO.
- Beal Cattle Company, Lander, WY bought a daughter in the 2019 sale for \$4,500, and she is now at Buschmeyer Angus Farm, Owensville MO.
- When we took the photo, she hadn't seen grass that good for a while, and didn't really care what we tried to do to get her attention. We think it still shows a good cow.
- She would be a Pathfinder, but her 2019 calf died pre-weaning.
- Bred April 1, 2022 to Huwa Notice 0443. Exposed April 10 to June 7, 2022 to De-su Volunteer B122. Preg check indicates conception on about April 1 with a heifer calf.

- This exciting heifer calf combines a reliable cow family based on her granddam that had data on 9 natural calves ratio 104 at weaning and 106 at yearling, with ultrasound data on 45 progeny. Her third dam, SAF Blackbird 3042, was one of 7 flush sisters born here in 1993, and everyone served as a donor.
- When you study the pedigree, combining proven sires close up like Enhance, FATE and Black Pearl, the impact this female can be immeasurable.

- A daughter of the ABS Global sire True North, out of the time-tested SydGen Royal Lass cow family.

Performance Information

The EPDs printed are all from the Fall 2022 Sire Evaluation Report.

Progeny ratios are printed on cows as of October 1. (Example: BWR 6 - 103, WWR 6 - 102, YWR 3 - 104 means the cow has six calves weaned or recorded with an average weaning ratio of 102, those 6 calves had an average birth weight ratio of 103, and three of those had yearling weights turned in with an average ratio of 104.)

We print ratios because many of our customers like to see them. But because of differences in the performance levels between herds and contemporary groups, and a multitude of factors that can affect any individual weight (which is the basis for the ratio), EPDs HAVE BEEN SHOWN TO BE AS MUCH AS NINE TIMES MORE ACCURATE THAN RATIOS AS A SELECTION TOOL.

(Consider the three to four hours that it takes to weigh and vaccinate a set of 110 bull calves on weaning day. There will be considerable difference in the fill between the first calves weighed and the last calves weighed.)

All spring calves in this sale have had birth and weaning weights processed through AHIR, and the EPDs printed reflect that data. Data from those calves has been used to update the progeny ratios of their dams, where applicable. No spring bull calves born after January 31 will be in this sale offering.

Also on sale day, we will furnish current weight, frame score, average daily gain, and projected yearling weights on the spring bull calves. Projected yearling weights are calculated by multiplying their post-weaning ADG by 160, and adding that result to their adj. 205-day weight. This is not an official 365-day weight.

In this sale book, you will see ratios for BW, WW and YW on some of the ET calves. The Association is supplying this information, and adjusting the interim EPDs accordingly, for those calves born out of registered Angus recipient cows. This methodology is called the three-parent model, due to the two genetic parents and the influence of the environmental parent, the recipient dam. These ratios are determined within their weaning contemporary group and within those ET calves raised by registered Angus recipients, after adjustment for age of the dam. This may be confusing at times, especially when some calves within a flush were raised by a registered Angus recipient and some were not.

ET calves raised by commercial recipients and those produced by IVF, will still carry EPDs that are the average of their sire and dam, and are lower accuracy than their counterparts raised by a registered Angus cow.

- The youngest daughter of the prolific SydGen donor SydGen Forever Lady 0420.
- Maternal sisters have sold to Alford Cattle Company, Caldwell, TX for \$6,600, and to Bernard & Carla Taylor, Houston, MO for \$3,500.
- Maternal brothers sold to Pollitt Farms, Astoria, IL for \$5,250, to Marty Mitchell, Clinton, MO for \$5,000, and to Steve Osgood, Weldon, IA for \$3,800.
- Bred April 15, 2022 to Connealy Cool 39L. Exposed April 22, 2022 to June 24, 2022 to SydGen Target 9581. Preg check indicates conception on about April 15 with a bull calf.

EPDs

We have the following abbreviations throughout this book with regard to EPDs. Remember that an EPD is an estimate of how future progeny will perform, relative to other Angus cattle with EPD values. The accuracy figure, just after the EPD, indicates the possible future change in the EPD. The higher the accuracy, the less likely the EPD will change appreciably.

CED—Percentage of unassisted births when a sire is mated to virgin heifers.

Higher values indicate more unassisted births.

BW – Birth weight, expressed in pounds.

WW – Weaning weight, expressed in pounds adjusted to 205 days of age.

YW – Yearling weight, expressed in pounds adjusted to 365 days of age.

RADG—Residual Average Daily Gain is a combination of residual feed efficiency and post-weaning gain, with a higher number preferred.

SC – Scrotal circumference, expressed in centimeters, at a year of age.

DOC—Percentage increase in number of progeny scoring 1 (most docile)

Claw—predicts hoof shape, with a lower number being desirable

Angle—predicts the angle of the pasterns, with a lower number approaching the desirable 45 degree angle.

HP—Percentage increase in number of daughters pregnant in their first breeding season

CEM—Percentage of unassisted births as first calf heifers.

Milk – Influence of the dam, due to her milking ability, on weaning weight, expressed in pounds of calf weaned.

HS—predicts the ability to shed their winter hair in the spring, with a lower number being desirable.

CW – Carcass weight, expressed in pounds at a given end point.

MB – Marbling, expressed as a portion of a marbling score (one point of marbling score = 1/3 quality grade).

REA – Ribeye area, expressed in square inches, at a given end point.

FT – Fat thickness, expressed in inches, at a given end point.

The American Angus Association no longer computes ultrasound EPDs. The ultrasound and carcass databases have been combined into one set of carcass EPDs, with both carcass data and ultrasound data used to compute those EPDs. We believe this has made it much simpler to understand, and should encourage more collection of carcass data to increase the accuracy of high use sires.

Remember that no EPD is an absolute. It simply allows you to compare genetic differences in breeding animals. As an example, if you were to use a high accuracy +30 WW EPD sire in your herd, and the weaning weights average 550 pounds, then you could expect a high accuracy +40 WW EPD sire to sire calves averaging 560 pounds, if used in exactly the same situation. A sire with a +6 BW EPD should sire calves averaging 4 pounds heavier at birth than a sire with a +2 BW EPD.

- The number one MARB EPD in the spring heifer calf offering, she also has the top \$B index value in the group, and ranks in the top 1% for \$C.
- Very rare to combine this much power with this kind of CED number.
- Produced by a Cool daughter that is a designated Pathfinder Dam, she stems from the Enamel cow family developed in the Dalebanks Angus program in Kansas.
- Maternal siblings sold in the 2021 SydGen Production Sale included a spring bull calf sired by Blueprint selling to Glen Ewigman, Brookfield, MO for \$4,500, and a bred heifer sired by Wake Up Call purchased by Oak Ledge Farms, Clinton, MO for \$5,000.
- Dam's maternal brothers sold to George Tomlinson, West Frankford, IL for \$8,000 in the 2016 production sale, and to Moreland Farms, Anna, IL in the 2020 SydGen Influence Sale.

- Maternal brothers have sold in past sales to Cross Ranch, Arthur, NE, and to Merishon Cattle LLC, Buckner, MO, with a maternal sister purchased by Darrah Land & Cattle, Mountain Grove, MO.
- This Volunteer heifer out of the time-tested Royal Lass cow family has extra value in the end-product traits, and her \$B index is in the top 5% of the breed.
- The dam is a maternal sister to a bull that sold for \$6,500 to Amonett Farms, Byrdstown, TN, and their maternal sister sold to Ray Family Angus, Glasgow, KY for \$3,700.

HERD UNITS

This is our 18th year of selling herd unit groups of heifers, and it has been well-accepted. As our herd expands and the size of this sale grows, we think it makes sense to sell these closely related groups of sisters as packages of two to five head at a time.

25TH ANNUAL SYDENSTRICKER INFLUENCE COMMERCIAL HEIFER SALE

John Payne Harrison
Jack Harrison
(573) 642-7486

at Callaway Livestock Auction, Kingdom City, MO
6 p.m., December 1, 2022 • Selling 143 Heifers

Located four miles east of the junction of U.S. 54 and Interstate 70. Turn on the SE outer road (at the first stoplight south of the I-70 overpass), and follow it back north, then east, about four miles.

Mershon Cattle LLC, Buckner and Appleton City, MO
Bruce and Tracey Mershon 816-289-3765 (C)
bruce@mershoncattle.com
www.mershoncattle.com

50 BLACK AND BWF BRED HEIFERS

All were AI bred to SydGen Enhance (Reference Sire X) on May 23 and 27, 2022. From June 9 to August 17, they were exposed to sons of SydGen Blueprint, Connealy Cool 39L, SydGen Omaha 5026, SydGen Merit 6553, SydGen Faith 6023 and SydGen Stealth 8556.

Heifers were ultrasounded and fetal sexed on August 16 or 17. They will be sorted by expected calving date and sex of the calf. Steermates were fed at Darr Feed Lot, Cozad, NE where they graded 94% Choice or better with 64% average dressing percentage.

35 BLACK AND BWF TWO YEAR OLD PAIRS

Calves are born from October 1 through November 15. These are all naturally sired by SydGen bred bulls sired by SydGen Merit, SydGen Enhance, SydGen Multi Tool, EXAR Stud, Bakers Northside and Connealy Cool 39L.

Bob Vandiver Cattle Co., Richmond, MO
Gary Vandiver 816-260-3888

50 BRED HEIFERS, Angus and BWF, all locally sourced from some of the top commercial herds in Ray County, MO. They have had all the standard vaccines, plus pinkeye vaccine, and were pelvic measured and tract scored. They were AI bred to SydGen Black Pearl 2006 (Reference Sire M) and SydGen Enhance (Reference Sire X) on May 9, and exposed to sons of SydGen Enhance from May 23 to June 25, 2022. They have been truck fed daily on a growing ration including Purina Availa-4 mineral.

White Oak Farms, Elsberry, MO
Dane Brooksher
Danny Thompson 636-290-5235

8 BLACK BRED HEIFERS, all home raised. All have had their standard vaccinations, and were hand-fed on grass, with good dispositions. They were AI bred to SydGen Resolve 7132 on May 1. Exposed to SydGen Faith 1056 #20088430 (+13 CED/+293 \$C). Heifers were ultrasounded, fetal sexed and pelvic measured on August 2. They were re-preg checked on October 19. All are commercial Angus, except for one registered heifer, #19864304.
2 BLACK TWO YEAR OLD PAIRS, both home raised and sired by SydGen

Mershon Cattle is a commercial cattle operation run by the Mershon family in western Missouri. This is the tenth consecutive year that Mershon Cattle has sold bred heifers in the SydGen Influence Commercial Heifer Sale. For five years, they have also sold pairs in the Spring SydGen Influence Sale. They have been using SydGen bulls and semen since 2004. Their herd consists of Angus based, cross-bred cows that have been AI bred using Angus, Hereford and Simmental semen. Steers are retained and sold on the grid. All heifers offered are from Mershon Cattle's home-raised cows. Mershon Cattle LLC was awarded the 2013 Missouri Angus Association Commercial Producer of the Year Award. In 2019, they received the BIF Commercial Producer of the Year Award, the most prestigious in the industry. Bruce is President of the Missouri Cattlemen's Association and Tracey is a Region 1 Board Member for the Missouri Beef Industry Council.

Bob Vandiver Cattle Company is a backgrounder and finisher in Richmond, MO. Prior to purchase, cattle are evaluated for genetic attributes that have predictable performance and will produce positive economic returns for the operation. The majority of the Vandiver's retained cattle are NHTC, Natural and GAP approved and are sourced throughout the Midwest. In 2014, a purebred cow herd was started by primarily utilizing Sydenstricker genetics. The cow herd is focused on producing a positive economic return through the beef feeding chain that ends with high quality beef for the consumer. If you have quality Verified program Cattle to sell, give Dale or Gary a call.

bulls. Vaccinated with good dispositions. Heifers will finish calving no later than December 9, with calves by Mead Power Surge S1096 #19432015 (+12/+255). Bull calves will be banded at birth, tagged to match the cows, and will receive Draxxin ahead of the sale.

White Oak Farms is a commercial cattle operation that has been raising cattle since 1968. Angus have been predominant for several generations, using SydGen bulls since 1980, and they have added some registered females over the last few years. They are first time consignors to this sale, and are looking forward to meeting other like-minded breeders.

DVAuction
Broadcasting Real-Time Auctions

Project 13

Three years ago, we were approached by Top Dollar Angus to supply semen for a project to validate EPDs and \$Indexes. 53 Hereford x Angus heifers at John Ranch, Huntsville, MO were bred to SAF Focus of ER and SydGen Enhance, both high-accuracy sires but born 19 years apart. The 31 progeny were handled together through weaning, were backgrounded together at John Ranch, were fed at Triangle H Feedlot, and processed at National Beef. The two sires had a difference in their \$B index of \$97 at the conclusion of the study. The actual difference in the value of their progeny, adjusted for feed consumption, was \$171.41, substantiating that the Angus EPDs and \$Indexes are a conservative estimate of the genetic differences in animals. Igenity Beef Scores also verified the differences in the sire groups.

We feel this study substantiates the genetic progress the breed has made in 20 years, and the reliability of our indexes to predict outcomes. To see the full white paper, visit www.topdollarangus.com and click to see the results of Project 31.

Bring Your Semen Tank Sale Day

If you place your semen order with Ben or Darla at the SydGen office by November 5, 2021, we can have semen on ANY ORigen sire available to pick up at the farm on sale day with no shipping charges. Of course, most SydGen sires are always available. For sire information, check the front 14 pages of this sale book, or visit www.ORigenbeef.org

Marketing Opportunities

Sydenstricker Genetics recognizes that being a Full Service Genetic Provider only begins when you buy a bull. There are programs that could help you market your feeder cattle, so feel free to contact us to discuss those programs, including AngusLink, Top Dollar Angus, MFA Health Track Alliance and U.S. Premium Beef.

ANGUS MEDIA EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusLinkSM, CAB®, Pathfinder®.

General Information

Health: All cattle will be accompanied with interstate health papers on sale day. Sydenstricker Genetics maintains a Certified Brucellosis Free Herd Number 322, and the cow herd is monitored for Johnes. All heifer calves more than 120 days of age have been officially calfhood vaccinated for Brucellosis. All fall-calving cows selling with calves at side are open. All cows have been vaccinated with Bo-viShield Gold 5, Spirovac VL-5 and Scourguard 3(k)/c, and poured for parasites. Calves have been vaccinated for IBR, BVD and PI-3, BRSV, Haemophilus, Mycoplasma, Pasteurella and 7-way Blackleg; de-wormed, and de-loused. Herd health is under the supervision of Dr. Colleen Neale and Dr. Lindsey Calhoun, Audrain Vet Clinic, 573- 581-4679.

Sale Location: Sydenstricker Genetics is located one mile south of Mexico, Missouri on Business Route 54. Mexico is 14 miles north of I-70 on Highway 54. Note: If traveling from I-70, take the first Mexico exit to the farm. GPS Address: 3997 S Clark Street, Mexico, MO.

Insurance: Livestock insurance will be available at the farm sale day.

Trucking: Sydenstricker Genetics will assist with trucking arrangements, but buyers are responsible for all trucking expenses.

Interests Retained in Bulls: See page 27.

Wintering Program for Bulls: See pages 25 and 37.

Breeding Privilege: All females sell with a breeding privilege (two straws of semen and any paperwork necessary) to any living SydGen bull on which semen is readily available.

Embryo Guarantee: Any female selling for \$10,000 or more is guaranteed to produce at least 10 transferable embryos within four embryo flushes by an AETA certified technician. If less than 10 embryos are produced, Sydenstricker Genetics will reimburse the buyer up to one-half the purchase price, prorated to the number less than 10 are produced. (Examples: (1) \$10,000 cow produces no transferable eggs; \$5,000 will be reimbursed. (2) \$10,000 cow produces six transferable embryos; \$2,000 will be reimbursed.) Guarantee is null and void if cow dies.

Junior Programs: Any registered Angus heifer purchased by a Missouri Junior Angus Association member will be nominated for the Missouri Junior Jackpot Show. Any junior wanting his animal nominated for the Jackpot show must notify us.

Any heifer from this sale is eligible for a 25% cash refund of the purchase price if she is a class winner at the 2021 National Junior Heifer Show.

Transportation: Private planes can land on the 5,500-foot runway at Mexico, Missouri (573-581-0162), which has a localizer approach for Runway 24. Commuter air service is available to Columbia Regional Airport (573-874-7508) on American Airlines, with connections to DFW and Chicago O'Hare. The farm is located 103 miles from Lambert St. Louis International, 184 miles from Kansas City International and 46 miles from Columbia Regional Airport.

Shuttle service on Mo-X is available from St. Louis or Kansas City to Kingdom City (1-877-669-4826). We will pick you up from any location if you contact us ahead of arrival date.

Terms and Conditions: Cattle will sell according to the Terms and Conditions as recommended by the American Angus Association. Also see page 52. All persons who attend the sale do so at their own risk, and Sydenstricker Genetics assumes no liability, legal or otherwise, for any accidents which may occur.

Inspection of Cattle: Cattle can be inspected at any time prior to sale day at the farm.

Performance Information: Complete performance information will be available. See pages 37, 51 and 85.

Updates and videos: Sale updates will be available prior to sale day at www.sydgen.com. Videos of the bulls selling will also be available there, and at www.dvauction.com.

On-line Bidding: The sale will be broadcast on-line with DV Auction. Log on at www.dvauction.com or call 402-474-5557 with problems or questions.

We are an original seedstock partner in ORlgen, Inc., as well as the recipient of the 1997 CERTIFIED ANGUS BEEF™ Seedstock "Commitment to Excellence" Award, and the 2001 BIF Seedstock Produce of the Year Award.
