## WELCOME TO SYDENSTRICKER'S 45<sup>TH</sup> ANNUAL PRODUCTION SALE

Dear Cattlemen,

Welcome to our 45th Annual Production Sale as we celebrate 71 years in the Angus business. We thank all the customers, supporters, competitors and employees who have been important to us along the way! We are proud of the Angus history that has been made here, as well as our sales history that includes some of the breed's most valuable animals, yet also includes cattle that "anyone can afford," to quote Ralph Sydenstricker.

The demand for CAB® and Prime beef continues to be a bright spot in the beef industry. No other country in the world can compete with us in the production of high quality beef. That is our strength in the world marketplace. Investing in quality breeding stock today helps you take full advantage of the better prices we're now seeing.

We believe the Angus cow is the most efficient in the business, and the breed will continue to dominate the genetics of the commercial cow herd. Our EPD system has allowed us to characterize Angus bulls very specifically, so when a commercial producer buys that bull to do a certain job, he will do that job. That reputation has been the driving force for the popularity of the Angus breed in the commercial sector today. The on-going weather stresses of the last several years reinforces the flexibility of the Angus cow.

We regard our position in the beef industry as research and development, finding and proving the sires that can force their way past the genetic antagonisms inherent in beef cattle production. We like to do that with as much diversity of bloodlines as possible. However, we continue to strongly pursue multi-trait excellence, not giving up the progress we've made solely to bring in new blood. These cattle need to excel on the measurable EPD traits to insure our customers' profitability, and they must be sound, fertile and efficient. The use of multiple bloodlines just gives us and our customers more options to select from, and more genetic diversity for the breed.

As always, we will do our best to inform you, our customer, with all the information we can to help you make good buying decisions. All breeding animals selling are either tested free of AM, NH, CA and D2, or have no pedigree risk. All animals at risk for M1 and DD are tested, and sell as is. As time has gone on, we have seen the accuracy of genomic evaluations increase, and every animal under two years of age that sells, is genomic tested.

We hope you will be with us November 18<sup>th</sup> to give us your evaluation. Come early Saturday morning and enjoy our Missouri country breakfast before the sale. If you cannot be here, our sale will once again be broadcast live on the internet by DV Auction.

For more information on any of the cattle in this offering, or if we can assist you in making travel arrangements, please call the farm office at (573) 581-1225 or the dealership office at (573) 581-5900.

We look forward to seeing you!

Sincerely,

Eddie L. Sydenstricker

Ben W. Eggers

CHASE MONTE, KIM SYDENSTRICKER-MONTE, SYDNEY BRISCOE, CONNIE SYDENSTRICKER, EDDIE SYDENSTRICKER, PAIGE BRISCOE, BLAKE BRISCOE, LEE ANN SYDENSTRICKER AND BRITTON BLOCK.

S A F FOCUS OF E R

- Owned with Edwards Ranch, Denton, MT
- Since he topped our 1996 sale at \$68,000, FOCUS had a very successful career. This long-time Pathfinder Sire left a legacy of combining calving-ease with explosive growth and fertile, functional daughters. Many thousands of descendants are still a strong force in the breed today.
- Semen \$10

**About the Cover:** The fall yearling sale heifers really enjoyed the wooded part of their pasture this summer!

## SydGen Herd Sires

Our herd sires, including some not referenced on this and the next 11 pages, are responsible for over 144,000 progeny in the AHIR database, of which over 58,000 have ultrasound scans, along with over 6,000 progeny on Australia's Breed Plan. More than 43,900 daughters of these sires have had calves reported on AHIR, and over 3,750 progeny have been reported through carcass evaluation. Genomic scores have been done on over 30,140 progeny. We have 55 sires used wide-ly enough to earn a place on the 2023 Sire Evaluation Report.

Most of these sires are available to you via artificial insemination, and semen can be ordered through our farm office, from ORigen Cattle Services, Huntley, MT, and from many local distributors, including ABS representatives, on many sires. We have semen prices printed at the end of each footnote on sires available directly from us, and all AI certificates are priced at \$40. If you would like to pick up semen on sale day, please let us know in advance so we can have ample supplies.

Some of these bulls will be on display sale day. Others are at their respective co-owners' farms, depending on ownership of the possession interest. All of the SydGen AI sires do see natural service duties; we think it's important for proper development of the bull.

## Our Mission

"To insure the success of our customers by developing predictable Angus genetics that excel in all the economically important traits, including carcass quality and cutability, feedlot performance, roughage conversion, maternal traits, fertility, disposition and soundness – thus allowing them to consistently and profitably produce a high percentage of finished cattle that meet Certified Angus Beef™ specifications."

70 years ago, the Audrain and Monroe County FFA and 4-H groups loaded their cattle up on an old 30-foot, flat deck trailer, to head to Sedalia, MO for the Missouri State Fair. One of the members was a 14-year-old Eddie Sydenstricker, who was exhibiting at the Missouri State Fair for the first time.

With that simple start, the competitive atmosphere and the many wonderful friendships, the Missouri State Fair Angus Show became a tradition for Eddie Sydenstricker and later, his family. That initial exposure to the many opportunities available in agriculture has led to a lifetime of involvement, dedication and investment in youth, agriculture, and the Angus breed. Those contributions were recognized at the recent Missouri State Fair where the 2023 Beef Shows were dedicated to Eddie and his family.

In 1952, Ralph Sydenstricker, Eddie's father, traded an International tractor for two Angus heifer pairs. One could argue that this unique transaction set things in motion that looking back have shaped the success of the Angus breed and American Angus Association.

Today, the National Junior Angus Association is the most recognized junior livestock program in the US and perhaps the world. Prior to 1956 there was no Director of Activities, no National Junior Angus Show, no National Junior Angus Association, no LEAD Conference. However, in 1956, American Angus Association Regional Manager Lyle Haring along with Missouri Angus Association Fieldman Ed Stout had an idea and a vision of what could be. They met with a group in northeast Missouri to form the first state junior Angus Association in the country. Eddie Sydenstricker was elected the first President. With Eddie and fellow officers in tow, Haring and Stout traveled across Missouri holding Field Days and organizing regional junior associations and encouraging other youth to get involved with Angus projects. Shortly after that, the American Angus Association

created the Director of Junior Activities position. One year later, Dean Hurlbut was hired and spent the next 42 years shepherding the junior programs of the American Angus Association.

One of Hurlbut's first programs was the creation of the filmstrip, "An Angus In Your Future" to help introduce young 4-H and FFA members to Angus and get them started showing cattle. A primary segment of the film was shot in Paris, MO with Eddie and his dad, Ralph, taking on leading roles there on their home farm. The film inspired many young cattle producers. Ironically, this film strip was shown at a 4-H club meeting, some 300 miles south of Paris, in Cape Girardeau County, inspiring a 12-year-old member to beg and plead with his family to let him get an Angus heifer. Today, Ben Eggers manages the Sydenstricker herd and is a past president of the American Angus Association.

Later in life, Eddie Sydenstricker served on the American Angus Board of Directors. It was as a member of the American Angus Board that Sydenstricker once again helped to write history and set the course for the future. At his first meeting after being elected to the board, members cast a vote on a motion to continue to fund and promote the Certified Angus Beef® Program. The program, still in its infancy, was struggling and losing money. The debate was long and contentious as board members considered the option of pushing forward or cutting it loose. The motion passed by ONE vote and Eddie says it's still one of his proudest moments on the American Angus Board when he voted "yes" to keep the Certified Angus Beef Brand Program because "It was the right thing to do."

From that start with two Angus heifer pairs, Sydenstricker Genetics now runs over 900 cows and continues to be a national leader in performance genetics. They prioritize performance data which allows their program to produce many leading bulls in

1957-58 Missouri State FFA Officer Team, Treasurer Eddie Sydenstricker seated fourth from left.

Eddie and Van Botkins with the original "Cajun Queen," perhaps the most famous pulling tractor in her day.

Eddie and Ralph Sydenstricker walking through the herd in the late fifties. Photo lifted from the film "An Angus In Your Future."

Eddie Sydenstricker with his 1956 Missouri State Fair FFA Show Grand Champion, Vol K.

*2023 Missouri State Fair Beef Show Dedication*

the Angus breed. Six SydGen bulls have generated over a million dollars of semen and certificates sales.

"Do what you say you're going to do," is a principle which guides all of Eddie's dealing be it cattle or equipment. This is evidenced by the nearly 80% repeat customer rate at the annual SydGen production sale held each November. The event features over 500 head and attracts cattlemen from over 20 states and with about 200 buyers. People have choices and Sydenstricker says their customer service, founded on integrity, has developed a program with a high level of repeat customers.

In 1944, Ralph Sydenstricker started an International Harvester dealership in Paris, Mo. But in 1966, the family business changed drastically when Ralph purchased the John Deere Dealership in Mexico, Mo. Eddie Sydenstricker has sustained the success of the family business. In 2020, Sydenstricker Implement Company partnered with Wm. Nobbe & Co., another family-owned dealership, establishing Sydenstricker Nobbe Partners which serves over 78 counties in Missouri and Illinois. Sydenstricker Nobbe Partners is one of the largest John Deere dealerships in North America and in 2021, SNP was named the Farm Equipment Dealership of the Year by the North American Equipment Dealers Association.

The Sydenstricker Family has second, third and fourth generation family members who work in the family business. Daughters Kim and Lee Ann are both involved in the dealerships,

with Kim working in PR at the Mexico location, and Lee Ann as marketing director for the dealerships. Grandson Chase Monte, Kim's son, is also active in the business working in the commercial scraper division out of the Columbia and Rocheport locations. Grandson Blake and granddaughters Sydney and Paige Briscoe, Lee Ann's children, are active in banking and real estate. Connie has been a partner in all of Eddie's endeavors for over 60 years.

Throughout these life experiences, Eddie has never forgotten those mentors that encouraged him and helped set him up for success. He has taken every opportunity to help return that gesture, "If you believe in the future of agriculture, you have to support the youth," says Eddie. When asked what advice he would give to a young person, "Get involved in anything you can and take leadership opportunities". Sydenstricker's life is a testimony of this. Sydenstricker was the Treasurer of the Missouri FFA Association in 1957-58 and during his term he says he gained many leadership and public speaking skills which he used throughout his life.

It is evident that Eddie Sydenstricker is leaving quite a legacy with a lifetime of service and support. Simply put, if you think about two of the biggest brands in agriculture, John Deere and Angus cattle, there is one name that comes to mind in Missouri, that would be Eddie Sydenstricker. Approaching his 84<sup>th</sup> birthday, Eddie is active in the day-to-day operations of both the farm and dealerships. "He lives each day to its fullest and truly enjoys his career, friends and family," Kim Sydenstricker proudly says about her father.

SYDGEN ADVENT GA 9778

- Owned with Bean Creek Angus, Mexico, MO
- The \$52,000 top-selling bull of our 2020 sale. A mistake on his grandam's DD test years ago was discovered after the sale, and he was returned to us when he came back as a carrier of DD. Since DD is a non-lethal condition, there are no restrictions on registration of carriers.
- Semen \$10

		1-108	1-106	1-101	5-143	5-121	5-115	5-104							

- Out of 122 heifers born and retained from the spring, 2022 calf crop, this heifer posted the Number 3 adj. WW to ratio 122, the Number 1 ADG at 2.88, the Number 1 adj. YW to ratio 130, the Number 1 adj. %IMF scan of 13.18% to ratio 223, and the Number 1 adj. RE of 14.2 to ratio 129.
- We believe she is the most dominant female ever produced here, and she is sound and easy to like.
- Of all our bred heifers produced here, she ranks Number 1 for \$B and \$C. 15,621 paternal siblings are in the AAA database, and only 3 Enhance daughters of any age post a higher \$Combination Value as of this writing. 2081 is stronger for SC, YW and RE EPDs than any of those three. As of this writing, no other non-parent female in the breed can meet or exceed her breeding values for YW, SC, DMI, Claw, RE and \$C.
- Her recently-deceased dam came to us as a featured yearling heifer from Mike Elmore's Cardinal Hill Farm, Glasgow, KY, and two flush sisters to 2081 were featured in our 2022 sale to Greiner Angus, Kalona, IA and John & Ryan Otto, Saint Elizabeth, MO, and another is retained. One maternal brother is working for Brad Detring, Farmington, MO
- We believe she is the most powerful daughter of Enhance ever produced here, and sells safe in calf to Connealy Craftsman since April 4.
- Selling one-half interest only. Buyer has the option to take possession, or leave her at SydGen. Whoever has the possession will own 100% of the natural calves. All embryos will be split 50-50, as well as all embryo transfer out-of-pocket expenses. Owner of the possession interest is responsible for any boarding charges, if she is sent to an ET center.

Progeny Record	2-110	2-116	1-118	1-127	1-108	1-156	1-119

- Introducing a relatively new branch of the Mary Blackbird family to our program.
- Grandam is a flush sister to BCA Mary Blackbird 2742, the \$420,000-valuation donor at High Roller Angus in Texas.
- 2741 and her daughters at Blair Carney Angus, Adair, IA have produced some of the most sought-after herd sire prospects in most of the recent SydGen Influence sales for BCA.
- Dam, 9817, came to us as a frozen embryo from the 2018 Foundation Female sale at the National Western Stock Show, and has already produced an enviable progeny record.
- Has a heifer calf (Lot 2A), calved August 31, 2023 by Worthington Loyalty. BW 64 lbs.
- Selling one-half interest with the option to double.

Progeny Record	2-87	2-103	2-105	2-152	2-97	2-124	2-109

- These two females offer some insight to the future breed impact of the recently deceased Volunteer bull, whose first calves to sell in our 2022 sale included the \$60,000 top-selling full interest fall yearling heifer to Spruce Mountain, Larkspur, CO.
- She is the only heifer in the breed, as of this writing, with her levels for CED, YW, HP and RE, and her outstanding scan record will help her even more.
- Grandam was the \$240,000-valuation lead-off female in the 2016 Vintage Angus Ranch sale to Spruce Mountain Ranch and Black Gold Genetics, and currently is the Number 16 proven dam in the breed for RE EPD, with 43 progeny genomic tested.
- Her third dam is the \$10M-producing Sandpoint Blackbird 8809 at Vintage
- Selling one-half interest with the option to double.

- Maternal sister to Lot 4A, and to a heifer selling to Carl Evers, Virginia, IL in the 2022 sale.
- One of the nicest Gavel daughters phenotypically that we have produced, with a very usable EPD profile.
- J & K Angus, Saint Elizabeth, MO selected a maternal sister to the dam for \$8,000 in the 2022 production sale, with Express Ranches, Yukon, OK also purchasing a maternal sister for \$12,000.
- Another maternal sister to the dam sold in the 2021 SydGen Production Sale to Reid Shrauner, Elkhart, KS for \$6,500.
- Maternal brothers to the dam sold in the 2022 SydGen sale for \$8,500 to William Devorss, Spickard, MO, and for \$7,000 to C Bar Land & Cattle, Percy, IL.
- Amonett Farms, Byrdstown, TN selected a maternal brother to the dam in the 2021 sale for \$9,000, with Buck Run Cattle Farm, Union, KY purchasing one at \$8,000, and Cunningham Farms, Molino, FL buying one at \$5,750.
- Cow family has a history of combining growth and end-product merit with calving-ease.
- Grandam, 5371, has generated \$268,000 in direct progeny sales for us over the years.

- A mating of the popular Connealy Clarity with the powerful young dam of Lot 5A.
- Donor dam is the only proven dam in the breed with her combination of CED, YW, \$Maternal and \$Combination.
- Great-grandam sold as a feature of our 2020 event, at \$8,000 to Blair Carney Angus, Adair, IA, where she is serving as a donor.
- On IVF embryos, we guarantee a 33% conception rate, if implanted by an AETA certified technician.

Record							

- One of the earliest calves offered anywhere by the \$600,000 record-selling Basin Jameson, who rose to the top with an EPD profile strong in multi-trait superiority.
- Dam is "the one left behind" from a three-way Buyer's Choice in our 2020 sale where her dam, SydGen Primrose 8051, brought \$25,000 to Amonett Farms, Byrdstown, TN and her maternal sister by Connealy Cool brought \$40,000 to Greiner Angus, Kalona, IA.
- High performance family with phenotypic and genotypic excellence.
- Selling one-half interest with the option to double.

Record							

- One of the strongest Early Bird daughters we've produced. She certainly didn't pulldown her dam's stellar progeny record.
- Early Bird daughters are building a strong record. One produced the top-selling bull in the May, 2023 Gardiner Angus Ranch sale, GAR Verified 2683, and his flush sister that sold for \$44,500.
- Bred April 13, 2023 to URF Alpha G138. Exposed from May 1 to June 6, 2023 to SydGen Eagle 1529. Preg check indicates conception about May 2.

- Dam is a maternal sister to the bull calf selling as Lot 19, their dam being SydGen Blackcap 5371, a past donor that has had a tremendous impact on the genetics in the SydGen program.
- J & K Angus, Saint Elizabeth, MO selected a flush sister to the dam for \$8,000 in the 2022 production sale, with Express Ranches, Yukon, OK purchasing a maternal sister in that sale for \$12,000.
- Dam's maternal sister sold in the 2021 SydGen Production Sale to Reid Shrauner, Elkhart, KS for \$6,500.
- A package of four frozen embryos out of the granddam sold for \$3,200 to Turner Meadow Ranch, Willis Point, TX in the 2020 sale.

## Interest Retained in Bulls

We are selling half revenue-sharing interest with full possession on all bulls. This means the bull is totally in your control as far as how you want to handle him, and you get 100% of the salvage value of the bull. Simply, we have the right to half the semen sales revenue from the bull if some-time in the future, semen sales become a possibility. If you sell the bull to another breeder, Sydenstricker Genetics retains that half semen interest.

The buyer has the option, on sale day, to pay one-third more than the bid price in order to obtain two-thirds revenue-sharing interest and full possession.

If you purchase a half interest bull and wish to collect some semen on the bull as an "insurance policy" for your own use, that semen is 100% yours, unless Sydenstricker Genetics is in contact with you and also wishes to collect the bull, either for within herd use, or to build a jointly-owned bank of semen for sale purposes. If you are not interested in collecting semen on the bull, SydGen does have the right to collect the bull for their own use, will pay the expenses involved, and will do so at the convenience of the owner of the possession interest.

- A maternal sister sired by Early Bird sold in the 2020 SydGen sale to Hurricane Creek Cattle, Hale, MO.
- Amonett Farms, Byrdstown, TN purchased a maternal brother to the dam in the 2014 SydGen sale for \$13,000, and their maternal sister was a feature of the 2016 sale going to Indian Springs Angus, Duck River, TN for \$10,000.
- The maternal grandam was a featured donor in the SydGen embryo program, selling in the 2016 production sale for \$13,000 to Voss Angus, Washington, MO.
- Great-grandam topped our 2012 sale at \$30,000 to Maifield, Inc., Kesley, IA.

## Bull Calf Wintering Program

We have sold many of our bulls as calves in past years, and are doing so again this year. Though they are not old enough to semen test by sale day, they are Guaranteed Breeders. Many cattlemen prefer buying calves and raising them at home to get them acclimated and to have the bull developed and ready to go out at breeding season. For those of you who do not have the facilities to raise the bulls, or just prefer not to do it, we offer an option for people buying bulls in this sale. For a flat fee of \$300.00, you may leave the bull here and we will raise him in our normal manner, and you may pick him up any time during the month of April, 2024. The bulls wintered at Sydenstricker Genetics will have yearling weights taken, be ultrasounded for body composition, and have a breeding soundness evaluation. Buyer does own the bull as of sale day, and assumes all risk of injury or death. We would suggest buyers purchase insurance on these bull calves. Bulls will be raised on a ration of grass hay, corn silage, oats and corn. They will be well grown out and hard, not over-conditioned.

- Son of the featured ABS Global sire BAR Dynamic who topped the 2021 Brinkley Angus Ranch Sale at \$140,000.
- A maternal sister to the dam produced the bull that sells as Lot 35 in this bull calf division, and the grandam has a son selling as Lot 129 in the fall bull group.
- The maternal grandsire, SydGen Enhance 8077 was one of the good breeding sons of Enhance we have produced that we had the misfortune to lose him at a young age. His daughters have been great producers, and he sired the \$35,000 half-interest Lot 1 in our 2021 sale to Springfield Angus, Louisburg, NC.

- This bull had excellent weaning performance, posts upper percentile ranking for YW EPD, and represents the first opportunity to purchase a son of Huwa Notice 0443, flush brother to the \$115,000 Huwa All-N-One 0429.
- Dam is a first-calf female that posted one of the heaviest weaning weights in her contemporary group, she is a daughter of the now deceased SydGen Enhance 8077.
- 5 Bar M, Spokane, MO purchased a maternal brother to the dam, sired by Exceed, in the 2019 sale for \$8,500.
- Cow family was imported from Canada by Ralph Sydenstricker in the late seventies.

- The maternal grandam was a donor in our ET program before selling as a \$17,000 feature of our 2016 Production Sale to Silverado Farms, West Des Moines, IA.
- Flush brothers to the dam sold in the 2018 sale to Bruns Angus, Madison, SD at \$16,000, to 5 Bar M, Spokane, MO for \$8,000, and to C Bar Land & Cattle, Percy, IL for \$4,500.

- Son of the popular Sitz Incentive who sold in the 2021 Sitz Female Sale for \$235,000.
- Dam is one of our favorite daughters of Wake Up Call, and she has compiled an impressive production record at SydGen.
- Dam's maternal brother sold for \$9,000 to Dan Neil, Marceline, MO, with their maternal sisters purchased by Mark Montgomery, Elizabeth, AR, and Triple V Farms, Perryville, MO.
- 5 Bar M, Spokane, MO purchased the maternal grandam in the 2016 SydGen sale.
- Put this bull on your list if keeping replacement females is a key consideration.

- Dam was a successful donor in our ET program before selling in the 2021 SydGen Production Sale to Smith Valley Angus, Salem, MO for \$9,000.
- The dam's first natural calf by Early Bird was the most talked about open heifers in the 2019 sale when she was purchased by FB Genetics, Dumas, TX for \$29,000. She later produced a \$44,500 daughter and Reference Sire DDD, GAR Verified 2683.
- Pollard Farms, Waukomis, OK selected a maternal sister in the 2021 sale for \$15,000, and maternal brothers sold in that same sale to Kris Graupman, Palmyra, MO for \$15,000, and to Bellis Family Farms, Orrick, MO for \$4,250.
- In our 2022 production sale, maternal brothers were selected by Robert Seamster, Queen City, MO and by George Neal, Auxvasse, MO.
- A maternal brother sired by Volunteer sells as Lot 77 in the fall bull division.

- This Ozark bull posted excellent weaning performance, his dam being a first-calf daughter of Omaha.
- The Ozark sons are very complete made, and he portrays a balanced set of EPDs for the economically important traits including fertility, structure, and carcass.
- The maternal grandam was bred at Riverbend, and sells as Lot 318.
- A maternal brother to the dam sired by Gavel sells as Lot 67 in the bull calf division.

Progeny Record	2-100	2-99	1-99	1-94	1-92	1-100	1-97

- An own son of the foundation SydGen sire Exceed, a bull whose influence on the program is felt through the many daughters left in the herd, and his sons Enhance, Merit and Transcend.
- The maternal grandam has 3 natural calves with an average weaning ratio of 112, and her 2 yearling progeny average 107 yearling weight, 109 on IMF, and 106 on ribeye.

## CED vs. BW

Which number should one consider strongest when purchasing a bull to use on virgin heifers?

This question comes up often in discussions. If you talk to a geneticist, CED is always the answer, because calving ease is what you are looking for, and that is the actual trait reflected by a CED EPD. Birth Weight (BW) is an indicator trait, but not the actual trait of economic importance.

However, one thing we think about pretty often is the fact that a lot more data affects the BW EPD than the CED EPD. First of all, CED EPD is based only on pulls and unassisted births out of first calf heifers. No data from second-calvers and older is counted at all. Secondly, if all the calves are born unassisted, it does not affect the CED of any of the sires, other than the influence of the birthweights on the BW EPD, which would have some correlated effect on CED EPD. That would mean most of the data from small herds would count very little, since the odds of pulling a calf on a small number of heifers is very small. Also, no pulls on ET calves are counted. In the big scheme of things, the number of pulls turned in is a pretty small number, and it seems to us that it could skew the CED EPD pretty strongly in either direction in a good luck/bad luck scenario.

Birth weights, on the other hand, are generally turned in, and processed, on a very high percentage of calves turned in on AHIR. Sire summary supplemental information shows over 5 times as many birthweights reported as there are calving ease scores.

- Maternal brothers sold in 2022 to Bradley Cattle, Marshfield, MO and to Trent Shultz, Rutledge, MO.
- The dam's maternal brother sold in our 2017 production sale to Brandt Farms, Corning, IA for \$4,100, and their maternal sister sold in the 2019 sale to Tucker Family Farms, Spencer, IN for \$3,200.
- The maternal granddam was a successful show heifer for Chase Monte, earning Pathfinder Dam status during her production in Chase's SydGen II program, selling in our 2019 sale for \$7,750 to Annaliese Mead, Eldon, MO.

## Replacement Policy

We guarantee that all bulls and females over 7 months of age at time of sale are fertile. If you have an infertility problem with any SydGen animal, you must contact us before culling the animal for any credit to be issued. It is the buyer's responsibility to return the animal to the seller in good breeding condition. SydGen reserves the right, on a case by case basis, to determine whether the animal be returned or sold for salvage.

If a bull does not pass a breeding soundness evaluation or does not settle cows naturally, we will provide you with a satisfactory replacement or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull. If the animal is returned, the credit will be for the full amount paid for the animal. This credit will include the cost of the wintering fee if that service was used, and can be used at any future SydGen or SydGen Influence Sale toward any animal sold by us. If a female is determined to be a non-breeder, we will offer you the difference of her purchase price minus her salvage value as a credit in any future SydGen Sale. Or, we will credit you with the full purchase price if she is returned. If a female sold as bred turns out to be open, we will refund 30% of the amount paid. She then would still qualify for the remainder of the credit if she does not breed back. Heifers that are flushed prior to having their first calf carry no breeding guarantee. Guarantee is null and void if the animal dies. This guarantee is in addition to the Sale Terms and Conditions of the American Angus Association, which also apply.

- A special feature here, this bull was at side of his dam in the 2022 SydGen Production Sale when one-half interest in the pair sold for \$30,000 to Greiner Angus, Kalona, IA.
- Dynamic was the \$140,000 selection of ABS Global from the 2021 Brinkley Angus Ranch Production Sale, and his progeny are marking him as a heavy muscled, power sire combined with reliable calving ease.
- Dam was our selection in the 2022 Brinkley Production Sale, and her grandam is a Pathfinder daughter of CC & 7.
- Dam is a thick-made, easy fleshing kind of female that seems to have some excellent potential. She has already been flushed conventionally one time, and aspirated three times, producing a total of 26 embryos.
- This bull ranks in the upper percentile for WW, YW, RADG, and CW EPDs, and was Number 1 in his contemporary group for adj. WW and YW.

**General Information On The Fall Yearling Bulls**

We are certain most buyers of these fall yearlings (Lots 74-180) will want to take them home after the sale. They are semen-checked, vaccinated, and ready to go. If you would like to leave him here on our wintering program until April, the cost will be \$400.00. This will include a re-check on his semen test.

There are four weaning contemporary groups in this set of bulls. The bulls lotted as 117-180 were raised at our Garcia and Dodson locations, fed at WFL, were all natural calves, and gained 3.44 lbs./day. Lots 74-116 were natural and ET calves out of two year olds, and natural and ET calves from our HH location. Those were fed in one feeding group at Dodson, and gained 3.55 lbs./day. Adj. YW average was 1,293 lbs. Average frame score on all fall bulls in the sale was 6.1 and average adj. SC was 35.5cm. Average adj. IMF was 3.62%, REA of 14.14, rib fat of .26 and rump fat of .34.

Calves were brought in from all locations and weaned, with weaning weights taken on May 19, about 7 days after actual weaning. Bulls were put on a complete, self-fed ration in two 20-acre fescue pastures until yearling weights, scrotal measurements, and ultrasound scans were taken on September 11 and 12, for total days on feed of 115 or 116 days. There was no "warm-up" (or shrink out) period between the date weaning weights were taken and their beginning test weight. The feed we now use on the bulls, Purina Bull Developer, does have limiters in it, and we have been pleased with the condition and the soundness of the bulls coming off test. We included substantially more fiber in the ration for two years now. Bulls were all vaccinated with Bovi-Shield Gold 5 VL5 HB and poured with Cydectin, and gradually converted to a silage and hay based ration, which they stay on until sale day. We wean late, and have a short feeding period in order to better utilize spring grass, and to help keep the bulls from being over-conditioned.

- Dam was the Number 1 adj. WW in the fall-born 2020 heifer calf crop.
- The maternal granddam was a valued member of the Mary Blackbird family at SydGen, and earned Pathfinder Dam recognition with her production record prior to selling in the 2014 SydGen Production Sale to Doug Borkowski, Elliott, IA for \$10,000.
- Dam is a maternal sister to a pair of SydGen herd sires purchased by Amonett Farms, Byrdstown, TN: Black Diamond who sold for \$20,000 and Powerball at \$9,000.
- Full sister to the dam sold in the 2022 production sale for \$5,500 to Amonett Farms, and produced a bull calf that sold in the 2022 sale for \$10,000 to Flag Ranch, Torrington, WY, and a son that sold in 2020 to Mershon Cattle LLC, Buckner, MO for \$5,000.

- A massive, high growth son of Gavel with WW and YW EPDs off the charts, as well as posting the Number 2 adj. YW of all the ET bulls.
- Dam was in our embryo program and sold in the 2021 SydGen Production Sale to Cardinal Hill Farms LLC, Glasgow, KY for \$10,500.
- A maternal sister in the herd posted a 115 weaning ratio on her first calf weaned this year.
- Dam's maternal brother sold for \$6,000 to C Bar Land & Cattle, Percy, IL in a past production sale.
- SydGen Lady 1548 was also an embryo donor, and she sold in the 2017 production sale for \$6,500 to Smith Angus Farm, Snow Camp, NC.
- Had a case of foot rot on picture day, so did not pose the best. Hopefully he will be all healed up and available sale day.

- Great herd bull prospect by Gavel out of a proven herd bull producing dam.
- A full brother that sold in our 2021 production sale posted an IMF ratio of 128, going to Smith Farms, Hay Springs, NE at \$20,000.
- Lazy H Ranch, Hays, KS purchased a maternal brother, Ozark, in the 2018 SydGen Production Sale for \$13,000, and his progeny have been readily accepted by commercial cattlemen at both Lazy H and SydGen.
- A maternal sister was the top-selling lot in the 2020 Missouri Angus Futurity selected by BC Angus, Adair, IA for \$20,000.
- A flush sister sells as Lot 195 in the fall open heifers, and a maternal sister to the dam has a spring bull selling as Lot 18.
- Krebs Ranch, Gordon, NE purchased a maternal brother to the dam in our 2015 sale for \$11,000.

- These two Gavel brothers are out of one of the most impactful donors in the history of Sydenstricker Genetics, purchased in our 2018 sale by Greiner Angus, then selling in the 2021 production sale to Leaders Angus, Minden, IA.
- Fanny first rose to the surface when a maternal sister to these bulls sold in our 2017 sale for \$50,000 to Crazy K Ranch, Michie, TN.
- 44 Farms, Cameron, TX paid \$85,000 for a maternal sister sired by Enhance in the 2018 sale.
- In the 2019 sale, maternal sisters sold to EZ Angus Ranch, Porterville, CA for \$6,000, to Bob Vandiver Cattle Company, Richmond, MO for \$4,750; and maternal brothers sold to Mayes Cattle, Lathrop, MO for \$5,000, and to Sandy Spur Cattle Company, Hays, KS for \$5,250.
- Pollard Farms, Waukomis, OK selected a maternal sister for \$40,000 in the 2020 sale, with Riverbend Ranch, Idaho Falls, ID purchasing another maternal sister for \$6,500.
- Maternal brothers selling in 2020 went to Bryan Switzer, Bucklin, MO for \$8,000, to Glenn Eigman, Brookfield, MO for \$7,000, to Kirk Egbert Ranches, Terreton, ID for \$5,500, to Berg & Sons Farms, Saint Anthony, IN for \$4,500, and to Stephen Magruder, Fordland, MO for \$4,500.
- In the 2021 sale, Pollard Farms purchased a maternal sister at \$6,000, and maternal brothers sold to Schaefer Bros., Linn, MO at \$6,250 and to Bryan Switzer at \$6,000.

## Cowboy Logic #456

We are often asked how we pick the sale cattle. Bulls are pretty much selected by birth date. All fall yearling bulls that are saleable are in the sale. When we start calving in January, we put January bull calves into one pasture or two, and when that is full, with 100+ head or so, those are the bull calves for the sale. These calves are culled at weaning for performance, scrotal size and structure. Later calves are used for the SydGen Influence Bull Sale in the spring, replacement bulls, or private treaty sales. Cows are primarily selected from the six and seven year old cows, with a "mandatory retirement age" of seven, except in certain cases when one was held an extra year so we could keep her heifer calf to replace her. We are now trying to sell more cows as two to five-year-olds. Our fall heifers are basically split down the middle in May after weaning, with half going in the sale and half retained. Flush sister and sire groups are split as well, to make the sale offering and the keeper heifer group very similar. Spring heifer calves are pretty much done the same way, although only a third of our heifer calves are sold as heifer calves to allow us to have bred heifers for the next sale.

- Dam of this bull came to SydGen as a bred heifer in the 2019 Brandt Angus Farms Production Sale and is a daughter of the foundation sire C C & 7.
- The dam has compiled an excellent production record, and a previous son sold in the 2022 SydGen Influence Sale for \$4,400 to Casey Spencer, DeKalb, MO.
- John Below, Whitewater, MO purchased a maternal brother in 2021 for \$4,000.

## Cowboy Logic #7

Every calf born at Sydenstricker Genetics is weighed with a scale. That is the weight reported on AHIR, and in the performance information listed in this catalog.

Many breeders, however, use an estimated birth weight determined by measuring the calf's heart girth or hoof circumference, and then use a chart to convert that measurement to pounds. We taped the heart girth of every calf born on the farm in the spring of 1999, and compared it to the calf's actual weight. We found the tape to be fairly accurate up to about 83 pounds. After that, the calves tended to weigh much more than their heart girth measurement would indicate.

For example, in 1999, our highest birth weights using the tape were only 92 pounds, and there were only two that were that high. Those two calves actually weighed 104 and 110 pounds. In the entire calf crop, there were actually 65 calves with birth weights of 92 pounds or more. Those who promote taped birthweights claim it will take care of any birthweight problems in the breed!

So what's our point? There's actually four points we'd like to make. Although customers who have bought bulls here for many years appreciate our use of true scale weights, new customers are sometimes shocked by our birth weights. We know in some instances that is because they are used to looking at estimated (taped) birth weights rather than true scale weights.

We are not totally opposed to the use of estimated (taped) birth weights. It's better than nothing, and we appreciate how much easier it is to measure the heart girth, rather than wrestling the calf into some kind of sling, and hoisting him up while trying to read the scale as he's bouncing around trying to get away, all the while you're also trying to watch for the mother pawing and bellowing behind you! Besides, the body circumference might have an influence on calving ease.

All we ask is that you compare apples to apples. If you're comparing these bulls to bulls from a herd that uses estimated tape weights, you need to know that the same calf will "weigh" differently in each herd. And, if you're buying bulls from a herd that guesses weights, or weighs them at the kitchen table, expect even more surprises!

Also remember that estimated (taped) birth weights will be bunched together tighter, since the higher weights will be closer to the average. This will affect EPDs in that they will not spread out as much as they really should.

In actuality, we recommend you not use a scale weight or an estimated weight very much in your selection decisions. The BW EPD is a much better indicator of what's in the calf genetically, and in natural calves; his own birth weight has been factored into his BW EPD. Studies have shown EPDs to be as much as nine times more accurate than ratios or raw weights as a selection tool.

While we're on the subject...

While we are firm believers in breeding heifers to low BW EPD bulls, it seems to us our breed has gotten a bit carried away with the concept, when breeding mature cows. Our experience is that a big, stout calf at birth is usually the big, stout calf at weaning, as long as there is no problem at birth. Remember that a +6 BW EPD Angus bull is equivalent to a 4.1 BW EPD Simmental or a -.4 BW EPD Charolais, according to the most recent Across-Breed EPDs of the U.S. Meat Animal Research Center. Also, an old University of Missouri study showed that cows will naturally try to produce a calf that weighs about 7% of her own body weight. 7% of a 1000-pound cow is 70 pounds, but 7% of a 1500-pound cow is 105 pounds.

- A top son of SydGen Rita 5730, sired by Hoffman Thedford, the \$200,000 top selling bull through the 2021 Hoffman Ranch Bull Sale in Thedford, NE.
- The progeny of 5730 have been widely accepted at both SydGen and Express Ranches, with a daughter also selling in the 2021 Spruce Mountain Ranch Production Sale, Larkspur, CO for \$55,000 to Deer Valley Farm, Fayetteville, TN.
- Grimmus Cattle Company, Hanford, CA purchased a maternal brother in the 2021 SydGen Production Sale for \$23,000, and he is the sire of Lot 108.
- In the 2022 SydGen Production Sale, maternal brothers sold to TC Ranch, Franklin, NE for \$7,500, and to Phil Burke, Saint Anthony, IN for \$7,000; with a maternal sister selling for \$9,000 to Roper Cattle Company, Lebanon, MO.
- Amonett Farms, Monroe, TN purchased a maternal brother in 2020 for \$7,000, with other brothers selling to J S Farms & Stokes Farms, McComb, MS for \$5,000; to RAGS Angus, Hopkinsville, KY for \$4,750; to and to McCloud Farms, Jayness, MS for \$3,750.

**Cowboy Logic #101**

"A contemporary group is a set of animals that have had an equal opportunity to perform: same sex, managed alike, and exposed to the same environmental conditions and feed resources. Contemporary groups are the cornerstone of genetic evaluation. They are the best way to account for environmental effects so that remaining differences among animals may be attributed to genetics, ultimately resulting in expected progeny differences (EPDs)."

--- American Angus Association

We take proper contemporary grouping very seriously at SydGen. We try to keep our contemporary groups as large as our pastures and facilities allow, and run them as "same sex" pastures whenever possible. It is every Angus breeder's responsibility to do the most accurate job possible turning in data, and proper contemporary grouping is the very most basic concept for National Cattle Evaluation.

- This Enhance son is an ET calf out of the Pathfinder Dam that has amassed a tremendous production record in the SydGen program. Should be a top cow-maker.
- Was raised by a 15-year-old recipient cow that offered plenty of companionship.
- Dam's natural calf sired by Volunteer sells in the spring bull division as Lot 10.
- A maternal brother by Northside sold in the 2021 SydGen sale for \$7,500 to Ivan Martin, Memphis, MO, with another maternal brother selling to Brian Eveland, Hawk Point, MO.
- Doug Borkowski, Elliott, IA and Boot Hill Farms, Hamilton, MO purchased a bull produced by a maternal sister in the 2023 SydGen Influence Sale for \$5,000.

## Cowboy Logic #90

Many of us have a predisposed notion that we want calving ease/low BW herd sires. But, in the Angus breed, do we really have that much problem with big calves? It seems like most of the problems at birth are more linked to abnormal presentations than actual calves that are too big for the cow or even heifer. And, it seemed like maybe those smaller calves just were not as thrifty. We decided to see if we could dig into the data, and see what survivability to weaning really looked like. After all, a small calf at birth doesn't really help the bottom line if he dies prior to weaning anyway!

We divided up four years of spring calf crops into three groups: (light) 69 lbs. or less; (medium) 70-89 lbs.; and (heavy) 90 lbs. and up. We edited out any abortions and all twins. In a nutshell, the death loss at birth through weaning was twice as high on the light calves as it was on the medium calves. The death loss on the heavy calves was the least of the three groups, and it was the least in every one of the four years. We did not differentiate according to cause of death, or whether it was right at birth or later on pre-weaning.

We've all heard someone say the growth rate of a dead calf is distressingly poor, and took that to mean we needed lighter calves at birth so we would get more of them born alive. Every operation is different, but it certainly appears to us that bigger calves at birth are more likely to still be around at weaning. We would never advocate breeding heifers to anything but a true heifer bull, but our cowherds might be much better served by sires that give their calves more of a head start.

A study by the University of Illinois on Sim-Angus cattle reported the same conclusions.

- Study the production record on this bull's dam that earned the Pathfinder Dam recognition, and this is her fifth straight bull to sell in the annual fall sale.
- NellieBeth Sandefur, Pollack, MO bought a maternal brother sired by Gavel in the 2022 sale for \$6,000, with Kevin Rohlfing, Hermann, MO purchasing a maternal brother in the 2021 sale for \$5,500.
- Jackson Farms, Hartville, MO paid \$6,000 for a maternal brother in our 2020 sale, with Oakalla Valley Partnership, Greencastle, IN buying a brother sired by Northside in the 2019 sale for \$7,000.
- The maternal grandam was an ET donor, selling in our 2018 sale to BC Angus, Adair, IA for \$6,000, and her son sold in that sale for \$10,000 to Squaw Creek Cattle Company, Fort Worth, TX.

## Results of the MCA Profitability Challenge

2023 marked the fourth year of the Missouri Cattlemen's Association Profitability Challenge. We are proud that a son of De-Su Volunteer B122 placed third in this year's contest, holding our own in this unique contest that measures all feed consumed, treatment costs and harvest value for an accurate assessment of the profitability of the steers in the contest. The contest is held at the University of Missouri South Farm, and uses the GrowSafe system to measure feed intake. We placed first in 2020 with a son of SydGen Wake Up Call 9446, second in 2021 with a son of SydGen Exceed 3223, and fourth in 2022 with a son of SydGen Wake Up Call 9253.

As an even stronger testament to the Angus breed's dominance, and our influence on Missouri genetics, in 2023 the first four steers were all Angus-sired. First place went to Briarwood Farms, Butler, MO on a son of SydGen Exceed 3223, and second place went to Mershon Cattle LLC, Buckner, MO on a son of Bakers Northside 6007. In fact, five of the top 7 steers were sired by SydGen sires.

Another aspect of the Profitability Challenge is the FFA Fantasy Feedout, where FFA Chapters compete for \$10,000 in prize money, and track the steers they "draft" through the feeding period and harvest dates. Congratulations to the Ash Grove FFA Chapter for winning this contest two years in a row.

- The dam of this Brickyard son came to SydGen as a fall calving female through the 2021 Pollard Farms Production Sale, Waukomis, OK.
- Dikoff Ranch, Faulkton, SD purchased a maternal brother in the 2022 SydGen Production Sale with one-half interest selling for \$20,000.
- Note the dam traces back to a CC & 7 daughter of the famed Pollard, Express and Deer Valley donor, Sitz Henrietta Pride 643T.

## Tips on Using Yearling Bulls

Yearling bulls have many advantages: fresher genetics, better selection, etc. Studies have shown bulls used as yearlings sire more calves in their lifetime than bulls held until they are two. Also, buyers who manage them well can often re-sell them as three or four-year-olds and recover much of their purchase price.

A few tips from our experience:

1. If your group has too many cows or heifers for one yearling bull (we suggest 10-15), don't put all the bulls out at the start of the season. If you turn them all out at once, they are likely to all lose weight and perhaps all go temporarily sterile at the same time. If you have two bulls, put one in for two weeks, then pull him and turn out the other one. The forced rest and a little feed and fly control will make him stronger. Using the every two week rotation, if one bull is a stronger breeder, he will always be covering what the other bull missed. Furthermore, running multiple bulls in the Midwest often results in broken penises; it's just different out West where the pastures are so much larger.

2. A yearling bull should not be out in a Missouri pasture from mid-July through August. Bulls generally shed their first two incisors about 18-20 months of age. That combined with fescue endophyte and heat stress could cause the bull to get so nutritionally stressed that it will take a long time to get him back in shape.

- One of the top weaning performers in the large fall bull contemporary group, this bull has a strong MARB EPD combined with a high percentile \$W index rank.
- He posted what is probably the best combination scan of the fall bull division, ratioing 199 for IMF and 112 for REA.
- Dam is a paternal sister to Gavel that came to SydGen as an open heifer in the 2019 Crazy K Ranch Spring Production Sale.
- A maternal sister sold in the 2021 sale for \$3,000 to Eric Shellabarger, Mexico, MO.
- If you feed out your calves and sell on a grid, this bull should be near the top of your list.

- A maternal brother to the dam sold for \$11,000 in the 2020 SydGen Production Sale to Bob Vandiver Cattle Company, Richmond, MO, with maternal brothers in that sale also purchased by Bruce Smith, Pleasant Hill, IL for \$5,000 and by Steve Osgood, Weldon, IA for \$4,000.
- Another maternal brother to the dam sold in 2021 to Jim & Joy Kleinsorge, Wellsville, MO for \$3,500.
- The maternal grandam sold as the top selling lot in the 2019 Missouri Angus Futurity to De-Su Angus, New Albin, IA for \$20,000, with her open heifer calf at side selling for \$8,000 to Greiner Angus, Kalona, IA.

## Performance Information

The EPDs printed are all from the Fall 2023 Sire Evaluation Report. Progeny ratios are printed on cows as of October 1. (Example: BWR 6-103, WWR 6-102, YWR 3-104 means the cow has six calves weaned or recorded with an average weaning ratio of 102, those 6 calves had an average birth weight ratio of 103, and three of those had yearling weights turned in with an average ratio of 104.)

We print ratios because many of our customers like to see them. But because of differences in the performance levels between herds and contemporary groups, and a multitude of factors that can affect any one individual weight (which is the basis for the ratio), EPDs HAVE BEEN SHOWN TO BE AS MUCH AS NINE TIMES MORE ACCURATE THAN RATIOS AS A SELECTION TOOL.

(Consider the three to four hours that it takes to weigh and vaccinate a set of 110 bull calves on weaning day. There will be considerable difference in fill between the first calves weighed and the last calves weighed.)

All spring calves in this sale have had birth and weaning weights processed through AHIR, and the EPDs printed reflect that data. Data from those calves has been used to update the progeny ratios of their dams, where applicable. No spring bull calves born after February 10 will be in this sale offering.

Also on sale day, we will furnish current weight, frame score, average daily gain, and projected yearling weights on the spring bull calves. Projected yearling weights are calculated by multiplying their post-weaning ADG by 160, and adding that result to their adj. 205-day weight. This is not an official 365-day weight.

In this catalog, you will see ratios for BW, WW, and YW on some of the ET calves. The Association is supplying this information, and adjusting the interim EPDs accordingly, for those calves born out of registered Angus recipient cows. This methodology is called the three parent model, due to the two genetic parents and the influence of the environmental parent, the recipient dam. These ratios are determined within their weaning contemporary group and within those ET calves raised by registered Angus recipients, after adjustment for age of dam. This may be confusing at times, especially when some calves within a flush were raised by a registered Angus recipient and some were not.

- Frank Greiner, Washington, IA bought a maternal sister in the 2022 SydGen sale.
- Sire is referenced on page 88.
- Dam's maternal brother was Blacksmith, the \$25,000 second high selling bull in the 2014 sale to Mogck & Sons, Olivet, SD.
- Maternal brothers to the dam also sold to Alford Cattle Company, Caldwell, TX for \$6,000, and to Will Schneider, Birdseye, IN for \$5,400; with her flush brothers going to JLR Angus, Unionville, MO, to Kueckelhan Farms, Booneville, MO, and to Suzy Harrison-Moore, Auxvasse, MO.
- Tim Bynum, Martin, TN purchased a flush sister to the dam in our 2020 sale, and their maternal sister sold in 2017 to Swanson Angus Farm, Durant, IA.
- Grandam is a Pathfinder Dam with an average progeny weaning ratio of 112 on 5 calves, and a donor in our ET program before selling to Alford Cattle Company in our 2018 sale.
- Note her high ranking values for MARB, Milk, \$W, \$B and \$C.
- Produced by the same cow family as EXAR 263C, this heifer scanned a stunning adj. IMF of 13.88% with a 12.7 adj. RE to make her unique combination of outcross pedigree, phenotype and breeding Values even more intriguing.
- Selling one-half interest with the option to double.

- E Z Angus Ranch, Porterville, CA purchased a daughter of this cow in the 2020 SydGen sale at \$5,500.
- Amonett Farms, Byrdstown, TN bought a son by Wake Up Call through the 2021 sale for \$7,000, and Joel Magnuson, Brookfield, MO bought a son in the 2018 sale for \$3,500.
- Note this female's strong production record, and we are retaining her yearling heifer by Resolve to replace her in the herd.
- The dam sold in our 2019 sale to Bill Boehm & Sons Angus Farm, Freeburg, MO, with her daughter selling for \$3,750 to Quail Valley Angus, Indian Trail, NC in that event.
- Has a heifer calf (Lot 244A), calved August 28, 2023 by SydGen Blueprint. BW 81 lbs.

## The Deal

On some of the open donors, we offer the option of leaving the cows here, and we will attempt to flush them on-farm, on December 11 with Trans-Ova Genetics. We will pay all of the flush expense and care for the cow, for 50% of the embryo production. We will post a list on sale day of which cows are eligible. Your share of the embryos will be frozen and available to you any time after the flush. Even if you plan to flush the cow later on your own, this might be a cheap, quick way to get a few embryos made before you move her.

- This proven SydGen donor is a full sister to the \$85,000 heifer purchased by 44 Farms, Cameron, TX, and a \$40,000 female bought by Pollard Farms, Waukomis, OK.
- Two daughters sold in the 2022 SydGen sale going to JNS Cattle Company, Bloomfield, IN, and to Frank Greiner, Washington, IA.
- Lot 336 is a daughter featured as a bred heifer in this sale, and another daughter produced the fall heifer selling as Lot 226.
- Maternal or full sisters sold to Crazy K Ranch, Michie, TN for \$50,000; to Pollard Farms for \$7,000; to Riverbend Ranch, Idaho Falls, ID for \$6,500; to E Z Angus Ranch, Porterville, CA at \$6,000; and to Bob Vandiver Cattle Company, Richmond, MO for \$4,750.
- Donor dam sold in the 2021 sale to Leaders Angus, Minden, IA for \$8,500.
- Has a heifer calf (Lot 281A), calved September 5, 2023 by SydGen KCF Gavel 8361. BW 68 lbs.

## Cowboy Logic #31

We are often asked about nutrition. Our basic philosophy is to have the nutritional level strong enough to allow genetic differences to be expressed, but not high enough to mask those differences. Our creep feed is predominantly whole oats and a commodity mix. Fall heifers are generally creep fed, but we take them off of it in March or April, when the grass starts coming, if there are no bull calves in the same contemporary group. Spring sale heifer calves are only allowed access to creep at about 70 days pre-weaning, and the keeper heifer calves that become the bred heifers in today's sale are not creep fed. Heifers are fed supplemental feed through their AI breeding at 14-16 months of age. After that point, they are totally on grass the rest of their life here, except for silage and hay as needed during the winter. Our pastures are predominantly K31 fescue, but we do try to keep a good stand of clovers and lespedeza in them. We have a few orchard grass pastures, and utilize rotational grazing as much as possible.

Fall bulls after weaning are self-fed Purina Accuration Developer on fescue paddocks until yearling weights are taken, then switched over to hay, silage, and limited grain. The January bull calves are hand-fed from weaning to sale day on a 2/3 oats, 1/3 corn ration with limited silage.

- A high ranking \$C female with this daughter of the \$43,000 For All.
- A son sold in the 2018 SydGen sale to C D Cattle Company, Martinsburg, MO.
- Benjamin Brockman, Union, KY selected a maternal sister in the 2019 SydGen sale, a maternal brother selling in 2016 to McGruder Angus Farm, Harviell, MO for \$4,000.
- Craig Cattle Farms, Florence, MO purchased the dam through our 2019 production sale.
- Has a heifer calf (Lot 299A), calved October 6, by SydGen Jeremiah 8360. BW 79 lbs.

## The \$Indexes

We now have six bio-economic indexes available on Angus cattle. \$Weaning is a measure of the economic impact of four primary areas affecting animals from birth through weaning. Those four areas are birth weight, weaning weight, maternal milk, and mature cow size. It assumes an 80-20 mix of cows to heifers. \$Feedlot is a measure of the value associated with post-weaning growth along with feed efficiency. \$Grid is actually a measure of total end-product value on a quality grid, using ultrasound and carcass data when both are available. \$B is a combination of YW, CW, DMI, marbling, ribeye area and fat thickness into a terminal post-weaning value.

\$Maternal Weaned Calf Value includes CED, CEM, WW, Milk, HP, docility, mature weight, and claw and angle EPDs to predict the profitability differences on a weaned calf basis.

\$Combination is the other newer index available that attempts to measure the combined economic impact of an animal on a dollars per head basis. It is computed by multiplying the \$Beef Value by 1.297, and adding that number to the \$M value. (This approximates a 20% replacement rate.) \$C has quickly become a driving force in the value of Angus breeding stock.

With any index, there are assumptions made which may or may not fit your particular operation. For instance, if you are going to use a bull on cows only, the bias toward lower BW in the \$W and \$M indexes may not be needed. If the bull is going to be used solely on heifers, you may need more bias toward lower birth weights. If you have unlimited feed resources, the bias toward smaller mature size in the \$W index may not be needed.

The same holds true for particular carcass traits. If you have feedlot and kill data on your cattle, you can fine-tune your growth and carcass trait needs more accurately with individual EPDs than with the \$B index. Actually, as the price of beef has driven \$B values higher the last few years, Carcass Weight (CW) is a dominant component of the \$B computations. If you are already pushing the limits of over-weight carcasses, you may need to select for less CW EPD, therefore making some higher \$B bulls less desirable in your scenario.

We do believe the \$C index is suited very well for most of our customers, and we are including it in this sale book on every animal. We are not printing \$G on each lot, as we think most of you prefer to look at the EPDs themselves for the four carcass traits. We still might reference \$G in a footnote if the animal is exceptional.

On sale day, every EPD and every bio-economic index will be posted for every animal, as of November 17.

- Reference Sire
- Owned with Lloyd Timbrook, Lentner, MO.
- We used this interesting young sire natural service before selling him to Lloyd.
- He's a moderate, thick-made heifer bull with excellent end-product merit.
- Five heifers sell, carrying his service.

### EPDs

We have the following abbreviations throughout this book with regard to EPDs. Remember that an EPD is an estimate of how future progeny will perform, relative to other Angus cattle with EPD values. The accuracy figure, just after the EPD, indicates the possible future change in the EPD. The higher the accuracy, the less likely the EPD will change appreciably.

CED—Percentage of unassisted births when a sire is mated to virgin heifers. Higher values indicate more unassisted births.

BW—Birth weight, expressed in pounds.

WW—Weaning weight, expressed in pounds adjusted to 205 days of age.

YW—Yearling weight, expressed in pounds adjusted to 365 days of age.

RADG—Residual Average Daily Gain is a combination of residual feed efficiency and post-weaning gain, with a higher number preferred.

SC—Scrotal circumference, expressed in centimeters, at a year of age.

DOC—Percentage increase in number of progeny scoring 1 (most docile)

Claw—predicts hoof shape, with a lower number being desirable

Angle—predicts the angle of the pasterns, with a lower number approaching the desirable 45 degree angle.

HP—Percentage increase in number of daughters pregnant in their first breeding season

CEM—Percentage of unassisted births as first calf heifers.

Milk—Influence of the dam, due to her milking ability, on weaning weight, expressed in pounds of calf weaned.

HS—predicts the ability to shed their winter hair in the spring, with a lower number being desirable.

CW—Carcass weight, expressed in pounds at a given end point.

MB—Marbling, expressed as a portion of a marbling score (one point of marbling score = 1/3 quality grade).

REA—Ribeye area, expressed in square inches, at a given end point.

FT—Fat thickness, expressed in inches, at a given end point.

The American Angus Association no longer computes ultrasound EPDs. The ultrasound and carcass databases have been combined into one set of carcass EPDs, with both carcass data and ultrasound data used to compute those EPDs. We believe this has made it much simpler to understand, and should encourage more collection of carcass data to increase the accuracy of high use sires.

Remember that no EPD is an absolute. It simply allows you to compare genetic differences in breeding animals. As an example, if you were to use a high accuracy +30 WW EPD sire in your herd, and the weaning weights average 550 pounds, then you could expect a high accuracy +40 WW EPD sire to sire calves averaging 560 pounds, if used in exactly the same situation. A sire with a +6 BW EPD should sire calves averaging 4 pounds heavier at birth than a sire with a +2 BW EPD.

- This heifer was produced by a bred heifer we purchased in the 2023 Brandt Farms Production Sale, Corning, IA.
- Sire of this heifer was a son of the heifer calf Weston Brandt purchased in the 2019 SydGen sale as we dispersed Chase Monte's SydGen II program.
- Dam is a flush sister to the \$135,000 Kenny Rogers, standing at ST Genetics, Navasota, TX.

## 26<sup>TH</sup> ANNUAL SYDENSTRICKER INFLUENCE COMMERCIAL HEIFER SALE

John Payne Harrison  
Jack Harrison  
(573) 642-7486

at Callaway Livestock Auction, Kingdom City, MO  
6 p.m., December 7, 2023 • Selling 123 Heifers

Located four miles east of the junction of U.S. 54 and Interstate 70. Turn on the SE outer road (at the first stoplight south of the I-70 overpass), and follow it back north, then east, about four miles.

**Mershon Cattle LLC, Buckner and Appleton City, MO**  
**Bruce and Tracey Mershon 816-289-3765 (C)**  
**bruce@mershoncattle.com / www.mershoncattle.com**

### 50 BLACK AND BWF BRED HEIFERS

All were AI bred to SydGen Enhance (Reference Sire T) on May 26, 2023. From June 9 to August 17, they were exposed to sons of SydGen Blueprint, SydGen Enhance, SydGen Merit 6553, De-Su Volunteer B122, SydGen Black Diamond 2768, Bakers Northside 6007, Mogck Sniper 16, HPCA Early Bird 65 and SydGen Aim 0001. All sires have CED of +7 or better, with genomically enhanced EPDs, the same requirements of Show Me Select service sires.

Heifers were ultrasounded and fetal sexed on August 18. They will be sorted by expected calving date and sex of the calf. Steermates were fed at Cattle Ridge, Wisner, NE, and processed at Cargill in Schuyler, NE. They dressed at 66%, and earned average carcass premium of \$5.30/cwt.

### 25 BLACK AND BWF TWO YEAR OLD PAIRS

Calves are born from October 1 through November 15. These are all naturally sired by SydGen bred bulls that are sons of SydGen Blueprint,

SydGen Black Diamond 2768, Bakers Northside 6007, Mogck Sniper 16, HPCA Early Bird 65.

Mershon Cattle is a commercial cattle operation run by the Mershon family in western Missouri. This is the eleventh consecutive year that Mershon Cattle has sold bred heifers in the SydGen Influence Commercial Heifer Sale. For six years, they have also sold pairs in the Spring SydGen Influence Sale. They have been using SydGen bulls and semen since 2004. Their herd consists of Angus based, cross-bred cows that have been AI bred using Angus, Hereford and Simmental semen. Steers are retained and sold on the grid. All heifers offered are from Mershon Cattle's home-raised cows. Mershon Cattle LLC was awarded the 2013 Missouri Angus Association Commercial Producer of the Year Award. In 2019, they received the BIF Commercial Producer of the Year Award, the most prestigious in the industry. Bruce is Past President of the Missouri Cattlemen's Association and Tracey is a Region 1 Board Member for the Missouri Beef Industry Council.

**Bob Vandiver Cattle Co., Richmond, MO**  
**Gary Vandiver 816-260-3888**

40 BRED HEIFERS, mostly Angus with a few BWF, all locally sourced from some of the top commercial herds in Ray County, MO. They have had all the standard vaccines, plus pinkeye vaccine, and were pelvic measured and tract scored. They were AI bred to SydGen Black Pearl 2006 (Reference Sire K) and SydGen Enhance (Reference Sire T) on May 10, and exposed to sons of SydGen Enhance from May 24 to July 9, 2023.

Bob Vandiver Cattle Company is a backgrounder and finisher in Richmond, MO. Prior to purchase, cattle are evaluated for genetic attributes that have predictable performance and will produce positive economic returns for the operation. The majority of the Vandiver's retained cattle are NHTC, Natural and GAP approved and are sourced throughout the Midwest. In 2014, a purebred cow herd was started by primarily utilizing Sydenstricker genetics. The cow herd is focused on producing a positive economic return through the beef feeding chain that ends with high quality beef for the consumer. If you have quality Verified program Cattle to sell, give Dale or Gary a call.

**Bellis Family Farms / Kirk and Amy Bellis**  
**8232 Woods Road, Orrick, MO 64077**  
**(816)889-8813 / Kbellis61@gmail.com**

8 BRED HEIFERS, sourced in eastern Kansas, and sired by Gardiner Angus Ranch bulls. They were AI bred to SydGen Black Pearl 2006 on May 8, 2023. All were exposed to SydGen Slash 1130 20088451. Preg check indicates 6 are safe to Black Pearl (Reference Sire K), and 2 are safe to the Slash son.

Kirk and Amy Iman Bellis have always been involved in Missouri agriculture. Kirk grew up on a diversified farm in Ray County near Richmond, MO, and they now reside on one of the farms previously owned by Kirk's grandparents. Kirk is retired from Bayer Animal Health and they enjoy raising Angus cattle on the home farm. Amy is the daughter of Nick Iman, Iman Angus near Slater, MO, and a well-known Angus auctioneer for many years. He was very involved in the early days of the Missouri BCIA tested bull sales, and was instrumental in the early years of Sydenstricker Angus sales. Their daughter Holly was Missouri Angus Queen in 2006.

**DVAuction**  
Broadcasting Real-Time Auctions

### Project 31

Four years ago, we were approached by Top Dollar Angus to supply semen for a project to validate EPDs and \$Indexes. 53 Hereford x Angus heifers at John Ranch, Huntsville, MO were bred to SAF Focus of ER and SydGen Enhance, both high-accuracy sires but born 19 years apart. The 31 progeny were handled together through weaning, were backgrounded together at John Ranch, were fed at Triangle H Feedlot, and processed at National Beef. The two sires had a difference in their \$B index of \$97 at the conclusion of the study. The actual difference in the value of their progeny, adjusted for feed consumption, was \$171.41, substantiating that the Angus EPDs and \$Indexes are a conservative estimate of the genetic differences in animals. Igenity Beef Scores also verified the differences in the sire groups.

We feel this study substantiates the genetic progress the breed has made in 20 years, and the reliability of our indexes to predict outcomes. To see the full white paper, visit [www.topdollarangus.com](http://www.topdollarangus.com) and click to see the results of Project 31.

### Bring Your Semen Tank Sale Day

If you place your semen order with Ben or Darla at the SydGen office by November 4, 2023, we can have semen on ANY ORlgen sire available to pick up at the farm on sale day with no shipping charges. Of course, most SydGen sires are always available. For sire information, check the front 12 pages of this sale book, or visit [www.ORlgenbeef.org](http://www.ORlgenbeef.org)

### Marketing Opportunities

Sydenstricker Genetics recognizes that being a Full Service Genetic Provider only begins when you buy a bull. There are programs that could help you market your feeder cattle, so feel free to contact us to discuss those programs, including AngusLink, Top Dollar Angus, MFA Health Track Alliance and U.S. Premium Beef.

## General Information

**Health:** All cattle will be accompanied with interstate health papers on sale day. Sydenstricker Genetics maintains a Certified Brucellosis Free Herd Number 322, and the cow herd is monitored for Johnes. All heifer calves more than 120 days of age have been officially calfhood vaccinated for Brucellosis. All fall-calving cows selling with calves at side are open. All cows have been vaccinated with BoviShield Gold 5, Spirovac VL-5 and Scourguard 3(k)/c, and poured for parasites. Calves have been vaccinated for IBR, BVD and PI-3, BRSV, Haemophilus, Mycoplasma, Pasteurella and 7-way Blackleg; de-wormed, and de-loused. Herd health is under the supervision of Dr. Colleen Neale and Dr. Lindsey Calhoun, Audrain Vet Clinic, 573- 581-4679.

**Sale Location:** Sydenstricker Genetics is located one mile south of Mexico, Missouri on Business Route 54. Mexico is 14 miles north of I-70 on Highway 54. Note: If traveling from I-70, take the first Mexico exit to the farm.

**GPS Address: 3997 S Clark Street, Mexico, MO.**

**Insurance:** Livestock insurance will be available at the farm sale day.

**Trucking:** Sydenstricker Genetics will assist with trucking arrangements, but buyers are responsible for all trucking expenses.

**Interests Retained in Bulls:** See page 21.

**Wintering Program for Bulls:** See pages 22 and 33.

**Breeding Privilege:** All females sell with a breeding privilege (two straws of semen and any paperwork necessary) to any living SydGen bull on which semen is readily available.

**Embryo Guarantee:** Any female selling for \$10,000 or more is guaranteed to produce at least 10 transferable embryos within four embryo flushes by an AETA certified technician. If less than 10 embryos are produced, Sydenstricker Genetics will reimburse the buyer up to one-half the purchase price, prorated to the number less than 10 are produced. (Examples: (1) \$10,000 cow produces no transferable eggs; \$5,000 will be reimbursed. (2) \$10,000 cow produces six transferable embryos; \$2,000 will be reimbursed.) Guarantee is null and void if cow dies.

**Junior Programs:** Any registered Angus heifer purchased by a Missouri Junior Angus Association member will be nominated for the Missouri Junior Jackpot Show. Any junior wanting his animal nominated for the Jackpot show must notify us. Any heifer from this sale is eligible for a 25% cash refund of the purchase price if she is a class winner at the 2024 National Junior Heifer Show.

**Transportation:** Private planes can land on the 5,500-foot runway at Mexico, Missouri (573-581-0162), which has a localizer approach for Runway 24. Commuter air service is available to Columbia Regional Airport (573-874-7508) on American Airlines, with connections to DFW and Chicago O'Hare. The farm is located 103 miles from Lambert St. Louis International, 184 miles from Kansas City International and 46 miles from Columbia Regional Airport. Shuttle service on Mo-X is available from St. Louis or Kansas City to Kingdom City (1-877-669-4826). We will pick you up from any location if you contact us ahead of arrival date.

**Terms and Conditions:** Cattle will sell according to the Terms and Conditions as recommended by the American Angus Association. Also see page 32. All persons who attend the sale do so at their own risk, and Sydenstricker Genetics assumes no liability, legal or otherwise, for any accidents which may occur.

**Inspection of Cattle:** Cattle can be inspected at any time prior to sale day at the farm.

**Performance Information:** Complete performance information will be available. See pages 33 and 51.

**Updates and videos:** Sale updates will be available prior to sale day at [www.sydgen.com](http://www.sydgen.com). Videos of the bulls selling will also be available there, and at [www.dvauction.com](http://www.dvauction.com).

**On-line Bidding:** The sale will be broadcast on-line with DV Auction. Log on at [www.dvauction.com](http://www.dvauction.com) or call 402-474-5557 with problems or questions.

We are an original seedstock partner in ORigen, Inc., as well as the recipient of the 1997 CERTIFIED ANGUS BEEFTM Seedstock "Commitment to Excellence" Award, and the 2001 BIF Seedstock Produce of the Year Award.

THE BEEF SHOWS AT THE 2023 MISSOURI STATE FAIR WERE DEDICATED TO EDDIE AND HIS FAMILY FOR HIS LIFELONG INVOLVEMENT AND SUPPORT.

IT'S ALWAYS A PLEASURE TO HOST THE ANNUAL MIZZOU LIVESTOCK JUDGING CAMP STUDENTS FOR A WORKOUT.

THE SYDENSTRICKER FAMILY RECEIVED THE 2022 AUDRAIN COUNTY RURAL CITIZEN AWARD FROM THE MEXICO AREA CHAMBER OF COMMERCE.

ENHANCE LOVED BEING THE CENTER OF ATTENTION WHEN WE HOSTED THE WARREN COUNTY MO & BROADWAY COUNTY MT 4-H INTERSTATE EXCHANGE STUDENTS.

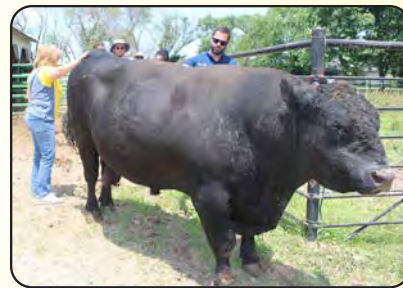

WE APPRECIATE THE CONTINUED SUPPORT OF THE BREEDERS AND CUSTOMERS AT OUR ANNUAL SPRING INFLUENCE SALE.

THE NEW DATE SAW A PACKED HOUSE FOR OUR COMMERCIAL HEIFER SALE AT CALLAWAY LIVESTOCK.

ASH GROVE FFA GOT A TOUR, LIVESTOCK JUDGING AND AG MECH CONTEST WORKOUT IN WHILE ON THEIR WAY TO STATE CONVENTION.

THE BAYER CROP MARKETING DATA ANALYTICS TEAM ENJOYED THE CHANCE TO GET UP CLOSE TO A LIVE ANIMAL AND ENHANCE LOVED THE ATTENTION.

WE'VE ENJOYED OUR PARTNERSHIP WITH THE MOBERLY AREA COMMUNITY COLLEGE AG AND VET TECH PROGRAMS.

WINNING IS EVEN SWEETER WHEN WE GET TO SHARE IT WITH FRIENDS AND CUSTOMERS, BRIARWOOD FARMS AND MERSHON CATTLE LLC. EXCEED, NORTHSIDE AND VOLUNTEER Sired THE FIRST, SECOND, THIRD, SIXTH AND SEVENTH PLACE STEERS IN THE 2022-2023 MISSOURI CATTLEMAN'S PROFITABILITY CHALLENGE!

IT WAS ONLY FITTING THAT WE GET A PICTURE WITH SHIRLEY GORDON KAUFMAN'S LIVESTOCK JUDGING TEAM NEXT TO 315'S GRAVE. HER DAD WOULD BE SO PROUD.

WE WERE GLAD TO HAVE OUR US CONGRESSMAN AND FARMER SAM GRAVES VISIT SYDGEN.

IT WAS A PLEASURE TO HOST THE USDA CO-CHRAN FELLOWS FROM JORDAN AND EGYPT THAT WERE IN THE US FOR TRAINING.
