Chuck Miller, President, Missouri Cattleman's Association

ACCOMMODATIONS, MACON, MO:

Comfort Inn (660) 395-8000
Super 8 (660) 385-5788
America's Best Value Inn (660) 385-2125
Travelers Motel (660) 385-2102

KNOWN GENETIC CONDITIONS: All animals selling will be tested AM, CA, NH, D2 and/or OS Free, or have no direct pedigree linkage to carrier animals. Most have already been tested by catalog time. The others will be tested AMF, CAF, NHF and/or D2F by sale day, or they will not sell. Potential DD and OH carriers should have results by sale day, and will sell.

HEALTH: Missouri, Iowa and Illinois are both Class Free TB and Class Free Brucellosis States. All cattle will sell with interstate health papers available on sale day. Many of the consignors maintain Certified Brucellosis Free Herds and several are on a Johns testing program. Sydenstricker Genetics maintains Certified Brucellosis Free Herd #322. All bulls have passed a breeding soundness evaluation within 60 days of sale day, and those papers will accompany the bulls. All consignors maintain an acceptable herd health and vaccination program, and all bulls have been vaccinated for IBR, BVD and PI3, BRSV, Lepto-5 and Vibrio, and de-wormed and de-loused within 60 days of sale.

TRICHOMONIASIS: Any non-virgin bulls and any bulls over 24 months of age are required to have a negative PCR trichomoniasis test within 30 days of the sale. They must not have had contact with any breeding age females for at least 30 days prior to that test.

In the event that a buyer wants to return a bull to the farm of the seller as a non-breeder, the bull must have a negative PCR trichomoniasis test before he is returned. A positive test for trich will void any breeding guarantees.

TRUCKING: We would like for buyers to move their bulls as soon as possible, and need to be picked up by noon, Wednesday, April 10, as other sale cattle are coming to the barn. The sellers will also assist the buyers in caring for the bulls if necessary, and in finding reliable truckers if needed.

INSURANCE: Livestock insurance will be available sale day.

TERMS AND CONDITIONS: Terms of the sale are cash.

Cattle will sell under the Terms and Conditions as recommended by the American Angus Association. All persons who attend the sale do so at their own risk, and neither Sydenstricker Genetics nor New Cambria Livestock Market assumes any liability, legal or otherwise, for any accidents which may occur.

ANGUSMEDIA EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at

www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded.

References: American Angus Association®, AHIR®, AngusLinkSM, CAB®, Pathfinder®.

INTERESTS RETAINED IN BULLS: You will notice we are selling half revenue-sharing interest with full possession in some bulls. This means the bull is totally in your control as far as how you want to handle him, and you get 100% of the salvage value of the bull. Simply, the Seller has the right to half the semen sales revenue from the bull if sometime in the future, semen sales becomes a possibility. If you sell the bull to another breeder, the original Seller retains that half interest. If you purchase a half interest bull and wish to collect some semen on the bull as an "insurance policy" for your own use, that semen is 100% yours, unless the Seller is in contact with you and also wishes to collect the bull, either for within herd use, or to build a jointly-owned bank of semen for sale.

SERVICE SIRES to use on heifers for the Show-Me Select Heifer Program must have a Calving Ease Direct (CED) EPD of +7 or higher, and be genomically tested on Angus GS or the Zoetis test.

SERVICE SIRES to use on heifers for the SydGen Influence Sale to be held December 5, 2024 must be +1.0 or lower BW EPD **OR** +7 or higher for CED EPD, and must carry the SydGen prefix in their name or be graduates of a SydGen Influence sale.

SEMEN is available on most SydGen Sires either direct from us, or through the ORigen network.

Darla Eggers

Dear Cattlemen,

Welcome to our Nineteenth Annual SydGen Influence Spring Sale. As many of you know, we have always sold our fall yearling bulls and January bull calves in our Annual Production Sale in November. We appreciate the acceptance of commercial cattlemen of our program and our sale offerings through the years. We are proud to include these contributing breeders who have used our genetics to create a larger group of SydGen influenced bulls to offer to the public.

The February-born SydGen bulls selling today were weaned on October 4, with yearling weights, hip heights, scans, scrotal and foot scores all taken on February 6. They were fed silage with a commodity mix and grain added, on a 20 acre fescue paddock with free choice grass hay. After yearling weights were taken, they were continued on the same ration, along with forced exercise to help condition them for pasture use. The average daily gain was 3.19 lbs./day over 125 days, and they had .28 inch average ribfat cover.

This sale is another step toward increasing the number of SydGen influenced sires in the Midwest's good commercial herds. Over the years, we have brought many outside bloodlines into our herd, and tested them with the extremes of Missouri's climate and fescue challenges, and we have seen differences in the adaptability. We have tried to mold the bloodlines that work into the herd sires we produce, and are proud of how well they've done for others. The contributing breeders selling today are performance-minded, with a long-term commitment to breeding better Angus cattle, and we think you will be pleased with the offering.

Ben Eggers

Eddie L. Sydenstricker

**Blair Carney Angus
Blair and Erin Carney****1060 105th Street
Adair, IA 50002****641-740-5016
blairjcarney@gmail.com**

Blair ran commercial cows for many years, and that herd is now used as recipients for progeny of the BCA donors. A small base of registered Angus cows was started in 2008, with the goal of developing a high quality product, incorporating several SydGen sires both AI and natural. They believe their embryo transfer program will increase their quality to an even higher level. Lots 5,9,10,12,25-27,46, & 59-61

**Boot Hill Farms LLC
Kent Brown****PO Box 37
Cameron, MO 64429****(816)632-8108
kbrown@nwepc.com**

Growing up around farming, Kent set goals of being in the cattle business some day, and bought some commercial cows in 2005. In 2010, he purchased his first registered Angus, and now are up to 50 head of registered Angus cows. Kent is building a strong base of Angus genetics, utilizing AI and ET as well as natural service in their breeding program. For more information, see www.boothillfarms.com. Lots 6,8,18,21, & 24

**Borkowski Angus Farm
Douglas Borkowski****11158 510th st.
Elliott, Iowa 51532****(712) 370-2540
borkowskiangus@gmail.com**

Borkowski Angus Farm was established in 1963 by Doug's father, Merle. They were early adopters of AHIR and have focused on producing balanced-trait cattle with an emphasis on docility, performance, and foot quality. Lots 19, 20, & 22

**Buschmeyer Angus Farm
Tony & Sherri Buschmeyer****4049 Hwy EE
Owensville, MO 65066****573-259-3686
catpaws@fidnet.com**

The Buschmeyers' have been utilizing embryo transfer and artificial insemination to improve the quality of their herd since they acquired their first registered cows in 2014. Lot 1

**Eggers Stock Farm
Richard, Marica and Gabe Eggers****734 CR 614
Jackson, MO 63755****(573) 225-7705
rickmaricaeggers@gmail.com**

Eggers Stock Farm has been in the registered Angus business since 1964, growing from early involvement in 4-H and FFA. They currently run about 75 cows, mostly registered Angus. Market steers are sold to USPB, and genetic selection emphasizes performance, carcass traits and fescue adaptability. Certified Brucellosis Free Herd #750. Lots 2,3,11, & 15-17

**Graupman Angus
Kris and Tracy Graupman****4152 CR 230, Palmyra, MO 63461
Home: (573) 769-2956****Cell: (573) 248-4958
kgraupman@centurytel.net**

In the registered Angus business for 38 years, Graupman Angus sells 30-35 bulls per year. They have consigned several top-selling and A- graded bulls in the NEMO BCIA and the MO BCIA sales. Kris is a past President of the Missouri Angus Association, and has consigned to this event every year since its inception. Lots 30-36 & 55-58

**Herron Angus
Tim, Amber, and Ivory Herron****13250 Audrain Road 919
Mexico, MO****(573) 473-2087
Timelvin79@gmail.com**

Tim's late father, Tom Herron, began raising registered Angus in 1990, and Tim and his family have continued the tradition, growing the herd with both phenotype and performance as priorities. They market both bulls and females through various consignment sales around the state. Lot 23

**Mershon Cattle LLC, Buckner and
Appleton City, MO
Bruce and Tracey Mershon****816-289-3765 (C)
31107 Lake City Buckner Road
Buckner, MO 64016****bmershon@lansingtradegroup.com
www.mershoncattle.com**

Mershon Cattle is a commercial cattle operation run by the Mershon family in Jackson County, Missouri. They have been using Sydgen bulls and semen since 2004. Their herd consists of Angus based, cross-bred cows that have been AI bred using Hereford and Charolais semen. Steers are retained and sold on the grid. Brothers of the heifers offered today graded 98% choice or higher. All heifers offered are from Mershon Cattle's home-raised cows. Mershon Cattle LLC was awarded the 2013 Missouri Angus Association Commercial Producer of the Year Award. In 2019, they were awarded the highest honor possible for a commercial cattle breeder, the BIF Commercial Breeder of the Year Award. Bruce and Tracey have consigned heifers to the Fall SydGen Influence sales since 2014, and to this sale since 2019. Lots 62-73

**Mundwiller Angus Farm
Mark, Pat, and Chelsea Mundwiller****1435 Liske Rd.
Hermann, MO 65041****(314) 614-4534
mmundwiller@hotmail.com**

Established in 1950, Mundwiller Angus Farm has always been focused more on quality than quantity. In the last decade, they have begun utilizing more AI and ET with a heavy SydGen influence. Lots 13 & 49

**LP Angus
Kenny and Landon Petree****Bunceton, MO
Kenny Petree (660) 473-1100****Landon Petree (660) 888-9601**

LP Angus began in 2016 with the purchase of Landon's first registered Angus cow and has quickly grown to a herd of 50 registered females. Kenny grew up on a dairy and row crop farm and has been in the commercial cow business since 1988. Kenny along with his three sons raise row crops and run 350 commercial cows in addition to the registered operation. Lots 14 & 51-54

**Power Angus Ranch
Randy & Twyla Power****13475 E. Rt. D
Centralia, MO 65240**

After spending more than 40 years in the Angus business, showing cattle, having yearly production sales, etc., they made a decision to put Angus cattle on the back burner and pursued other opportunities in the livestock business. They are now returning to our love for the Angus business with a few select cows. Lot 4

**Wallis Angus Farms
Billy and Jenny Wallis****310 W. Cedar Hills Dr.
Millersville, Missouri 63766****(573)837-2525
wallisangusfarms@hotmail.com**

Wallis Angus Farms (WAF) is located near Millersville in Southeast Missouri. Billy Wallis has strived to breed Angus cattle that perform in the field and feedlot. The operation is based on decades of combined experience in selecting, breeding, and raising quality beef. From raising and showing steers and heifers in 4-H as a youth, helping and now being part of the Show-Me-Select Heifer (SMS) program from its beginning, high performing cattle is at the heart of their family business. Billy serves on the board of the SEMO Cattlemen's Association. He and his family run approximately 100 plus head of commercial Angus cattle and 15 head of Registered Angus. They currently market 25 to 30 head of SMS qualified heifers annually at the local Show-Me-Select sale or off the farm. Their best bull prospects are available for sale through consignment to quality performance sales or private treaty. Lots 43-45

Results of the MCA Profitability Challenge

2023 marked the fourth year of the Missouri Cattlemen's Association Profitability Challenge. This unique contest measures all feed consumed, treatment costs and harvest value for an accurate comparison of the profitability of the steers in the contest. The contest is held at the University of Missouri South Farm, and uses the GrowSafe system to measure feed intake. We placed first in 2020 with a son of SydGen Wake Up Call 9446, second in 2021 with a son of SydGen Exceed 3223, and fourth in 2022 with a son of SydGen Wake Up Call 9253.

In 2023, we placed third with a son of De-Su Volunteer B122. As an even stronger testament to the Angus breed's dominance, and our influence on Missouri genetics, first place went to Briarwood Farms, Butler, MO on a son of SydGen Exceed 3223, and second place went to Mershon Cattle LLC, Buckner, MO on a son of Bakers Northside 6007. In fact, five of the top 7 steers were predominantly Angus or purebred Angus, and sired by SydGen sires. Every one of those sires has progeny selling in the offering today.

The \$ Indexes

We now have six \$ Indexes available on Angus cattle. \$Weaning is a measure of the economic impact of four primary areas affecting animals from birth through weaning. Those four areas are birth weight, weaning weight, maternal milk, and mature cow size. It assumes an 80-20 mix of cows to heifers. \$Feedlot is a measure of the value associated with post-weaning growth along with feed efficiency. \$Grid is actually a measure of total end product value on a quality grid, using ultrasound and carcass data when both are available. \$B is a combination of YW, CW, DMI, marbling, ribeye area and fat thickness into a terminal post-weaning value.

\$Maternal Weaned Calf Value, just released in June, 2019, includes CED, CEM, WW, Milk, HP, docility, mature weight, claw and angle EPDs to predict the profitability differences on a weaned calf basis.

\$Combination is the other new index. It attempts to measure the combined economic impact of an animal on a dollars per head basis. It is computed by multiplying the \$Beef Value by 1.297, and adding that number to the \$M value. (This approximates a 20% replacement rate.) With any index, there are assumptions made which may or may not fit your particular operation. For your own unique operation, you may prefer more or less emphasis on \$M and \$B to develop your own Combination index.

We do believe the \$C index is suited very well for many of our customers in the midwest, and we are including it in this sale book on every animal. We are not printing \$G on each lot, as we think most of you prefer to look at the EPDs themselves for the four carcass traits.

On sale day, the most current EPDs and every bio-economic index will be posted for every animal, as of April 9, 2024.

Mundwiller Angus

Dam was one of the top featured fall yearlings in the 2015 SydGen Sale at \$24,000 where she sold to Pollard Farms, Waukomis, OK. She later sold to Buschmeyer Angus Farm, Owensville, MO where she also serves as a donor. Sire is the ever popular "Whiskey" that has left a great legacy through his many descendants, including the dam of Exceed.

LP Angus

Landon says this is just the kind of bull they are trying to produce, with exceptional phenotype and maternal heritage driving his exceptional numbers for growth and \$C. Dam produced 4 progeny at SydGen that grossed \$40,700, and you can see the progeny record she is maintaining in the Petree herd as well. Selling half interest and full possession.

Dam came to BCA as the top-selling female of the 2020 Missouri Angus Futurity at \$15,000. Maternal sister just scanned at SydGen was #1 in her contemporary group for ultrasound, ratioing 162 for IMF and 111 for REA. Has a heifer calf (Lot 61A), tattoo 4033, by HF Equity 0050 19856871. BW 71 lbs.

Mershon Cattle LLC

62-73

45

Two-Year-Old Commercial Spring Pairs, sorted into 12 groups of about 4 pairs

The Mershon females are calf raisers!

These two year old heifers have calves at-side that will be 10-30 days old on sale day, sired by SydGen natural service bulls. All the heifers will be black or black baldies. The sires of the calves will be sons of SydGen Blueprint, SydGen Enhance, SydGen Merit 6553, SydGen Black Diamond 2769, De-Su Volunteer B122, Bakers Northside 6007, Mogck Sniper 16, HPCA Early Bird 65 and SydGen Aim 0001. All sires have CED of +7 or better, with genomically enhanced EPDs, the same requirements of Show Me Select service sires.

Steer-mates to the cows selling were fed at Darr Feedlot, Cozad, NE where they graded 94% Choice or better with 64% average dressing percentage.

All of these commercial females were produced at Mershon Cattle LLC. They have a comprehensive animal health program on the cows, and in addition, the baby calves at-side will have Inforce 3 prior to sale time, and a dose of Draxxin the day of the sale.

Scenes from Past Sales

Join us on Tuesday evening at New Cambria to see this year's offering!

DVAuction
Broadcasting Real-Time Auctions

We were able to get just a few photos to include in the sale book. We will try to get videos on many of the bulls, and have them available at least a week to 10 days prior to the sale. Some of the bulls will be videoed on sale day, as well, so check again on Tuesday afternoon. You will be able to find them at:

www.dvauction.com

www.sydgen.com

We will also try to have updates available on the SydGen page as we get closer to sale time.

*You, the commercial cattlemen,
are the foundation of the beef industry.
Thank you for your support of the SydGen program,
and these contributing breeders who have joined us to
present the sale offering today.
If there is anything you would like us to do differently,
please let us know. We want you to be successful, and
we want to supply you with the genetics and the
information that will aid your success.*
